RANCHO MURIETA COMMUNITY SERVICES DISTRICT

December 21, 2022

REGULAR BOARD MEETING

Call to Order

Closed Session 4:00 p.m./Open Session 5:00 p.m.

Note that this meeting will be held in-person at the address set forth above, and not via videoconference. In order to comply with the State's COVID-related Guidance for the use of face coverings, it is strongly recommended that all persons, regardless of vaccination status, continue to mask while in indoor public settings and businesses.

All persons present at District meetings will place their cellular devices in silent and/or vibrate mode (no ringing of any kind). During meetings, these devices will be used only for emergency purposes and, if used, the party called/calling will exit the meeting room for conversation. Other electronic and internet enabled devices are to be used in the "silent" mode. Under no circumstances will recording devices or problems associated with them be permitted to interrupt or delay District meetings.

AGENDA

ESTIMATED RUNNING TIME 5:00

1. CALL TO ORDER - Determination of Quorum –President Maybee **(Roll Call)**

2. CONSIDER ADOPTION OF AGENDA **(Motion)**

The Board will discuss items on this agenda, and may take action on those items, including informational items and continued items. No action or discussion will be undertaken on any item not appearing on the agenda, except that (1) directors or staff may briefly respond to statements made or questions posed during public comments on non-agenda items, (2) directors or staff may ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities, (3) a director may request staff to report back to the Board at a subsequent meeting concerning any matter or request staff to place a matter on a future Board meeting agenda, and (4) the Board may add an item to the agenda by a two-thirds vote determining that there is a need to take immediate action and that the need for action came to the District's attention after posting the agenda.

*The running times listed on this agenda are only estimates and may be discussed earlier or later than shown. At the discretion of the Board, an item may be moved on the agenda and or taken out of order. **TIMED ITEMS** as specifically noted, such as Hearings or Formal Presentations of community-wide interest, will not be taken up earlier than listed.*

3. BOARD RECEIPT OF COUNTY CERTIFICATE OF ELECTION APPOINTING DIRECTORS MAYBEE, JENCO, AND BUTLER **(Receive and File)**

14. COMMENTS FROM THE PUBLIC

Members of the public may comment on any item of interest within the subject matter jurisdiction of the District and any item specifically agendized. Members of the public wishing to address a specific agendized item are encouraged to offer their public comment during consideration of that item. With certain exceptions, the Board may not discuss or take action on items that are not on the agenda. If you wish to address the Board at this time or at the time of an agendized item, as a courtesy, please state your name and address. Speakers presenting individual opinions shall have 3 minutes to speak. Speakers presenting opinions of groups or organizations shall have 5 minutes per group.

15. CONSIDER COMMITTEE APPOINTMENTS (Discussion/Action)

16. RECEIVE UPDATE FROM MARTIN POHLL ON THE GENERAL MANAGER TRANSITION AD HOC COMMITTEE (Receive and File)

17. RECEIVE UPDATE ON RIO OSO LIFT STATION AND CONSIDER ACTION TO CONTINUE THE CONTRACTING EMERGENCY DECLARATION BY A 3/4ths VOTE (Discussion/Action) (Motion) **(Roll Call Vote)**

18. RECEIVE UPDATE ON REPAIRS TO LAKE 11 AND CONSIDER ACTION TO CONTINUE THE CONTRACTING EMERGENCY DECLARATION BY A 3/4ths VOTE (Discussion/Action) (Motion) **(Roll Call Vote)**

19. DIRECTOR COMMENTS/SUGGESTIONS

In accordance with Government Code 54954.2(a), directors and staff may make brief announcements or brief reports of their own activities. They may ask questions for clarification, make a referral to staff or take action to have staff place a matter of business on a future agenda.

20. ADJOURNMENT (Motion)

In accordance with California Government Code Section 54957.5, any writing or document that is a public record, relates to an open session agenda item and is distributed less than 24 hours prior to a special meeting, will be made available for public inspection in the District offices during normal business hours. If, however, the document is not distributed until the regular meeting to which it relates, then the document or writing will be made available to the public at the location of the meeting.

In compliance with federal and state laws concerning disabilities, if you are an individual with a disability and you need a disability-related modification or accommodation to participate in this meeting or need assistance to participate in this meeting, please contact the District Office at 916-354-3700 or awilder@rmcsd.com. Requests must be made as soon as possible.

Note: This agenda is posted pursuant to the provisions of the Government Code commencing at Section 54950. The date of this posting is December 16, 2022. Posting locations are: 1) District Office; 2) Rancho Murieta Post Office; 3) Rancho Murieta Association; 4) Murieta Village Association.

COUNTY OF SACRAMENTO VOTER REGISTRATION AND ELECTIONS CERTIFICATE OF FACTS

STATE OF CALIFORNIA }
County of Sacramento } ss.

I, HANG NGUYEN, Interim Registrar of Voters of the County of Sacramento, State of California, do hereby certify that the number of nominees for the office of:

Rancho Murieta Community Services District

did not exceed the number of offices to be filled at the:

November 8, 2022 General Election.

A petition signed by 10% of the voters or 50 voters, whichever is the smaller number, in the district or trustee area if elected by trustee area, requesting that the district election be held was not presented to me.

In accordance with Elections Code §10515, I hereby request that the Board of Supervisors appoint to such office the following person who filed a declaration of candidacy, and who shall take office and serve exactly as if elected at the General Election.

Director

Number of Positions: 3
Number of Candidates: 3
Name(s) of Candidate(s): Timothy E. Maybee
Randy Jenco
Linda Butler

I further certify that the conduct of the election and canvass of the ballots was, in every respect, in accordance with the election laws of the State of California.

IN WITNESS WHEREOF I have set my hand and affixed my official seal on this
7th day of December, 2022, in accordance with the laws of the State of California.

HANG NGUYEN
INTERIM REGISTRAR OF VOTERS
County of Sacramento
State of California

*Elected

MEMORANDUM

Date: December 16, 2022
To: Board of Directors
From: Amelia Wilder, District Secretary
Subject: Election of Board Officers

As is stated in Chapter 2 Rules and Procedures of the Board of District Code, Section 2:

“The officers of the Board shall consist of a President and Vice President. At its regular meeting in December following a general election, the Board shall elect one of its members as President and one of its members as Vice President. The term of office for President and Vice President shall be for two (2) years; provided, however, that the President and the Vice President serve at the pleasure of the Board and may be changed at any time with or without cause. In the event of a vacancy, the office may be filled immediately by election of the Board. The President and Vice President may serve for a total of two (2) consecutive terms or four years.

It is time to elect a President and Vice President. Tim Maybee began his term as President in May of 2020. Randy Jenco began his term as Vice President in December of 2018, making him ineligible to hold the office of Vice President for the next term.

RANCHO MURIETA COMMUNITY SERVICES DISTRICT REGULAR BOARD MEETING MINUTES

November 16, 2022

Closed Session 4:00 p.m./Open Session 5:00 p.m.

1. CALL TO ORDER/ROLL CALL

President Maybee called the Regular Board Meeting of the Board of Directors of Rancho Murieta Community Services District to order at 4:00 p.m. in the District meeting room, 15160 Jackson Road, Rancho Murieta. Director's present at the District office were Tim Maybee, Linda Butler and Martin Pohll. Director Jenco was absent. Also present at the District office were Michael Fritschi, Interim General Manager; Paula O'Keefe, Director of Administration; Travis Bohannon, Interim Director of Operations; Kelly Benitez, Security Supervisor; Andrew Ramos, District General Counsel; and Amelia Wilder, District Secretary.

2. CONSIDER ADOPTION OF AGENDA

Motion/Maybee to adopt the Agenda. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.

3. CLOSED SESSION

- A. Closed session for public employee performance evaluation of Interim General Manager
- B. Closed session to consider process for public employee appointment of General Manager
- C. Conference with Legal Counsel – Existing Litigation (Gov. Code, § 54956.9(d)(1)) – *Tompkins v. Rancho Murieta CSD*

4. OPEN SESSION/REPORT ACTION FROM CLOSED SESSION

Director Maybee reported that no decisions were made.

5. CONSENT CALENDAR

Motion/Maybee to approve Consent Calendar with the exclusion of Item 5B, October Bills Paid Listing, which will be included in the December Packet. Second/Pohll. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.

6. RECEIVE BUDGET TO ACTUAL REPORT

Vanessa Burke, Financial Consultant with the PUN Group, presented the Draft Budget to Actual Report. The Board made its recommendations, and the report will go to the December Finance Committee.

7. CONSIDER APPROVAL OF CAL-WASTE FRANCHISE AGREEMENT

Jack Fiori, CAO, Cal Waste, gave the Board a presentation which included a detailed explanation of the changes being made as a result of SB 1383. One annual bulky waste pickup has been added for each resident starting July 1, 2023. **Motion/Maybee to approve Cal-Waste Franchise Agreement. Second/Pohll. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

8. STAFF REPORTS

Under Agenda Item 8A, Mr. Fritschi gave a summary of activities during the previous month, highlighting the following topics:

- Transition Ad Hoc Committee
- SB 170 Funds
- Drought Relief Grants
- Revision of Existing Fee Schedule Formats
- Sourcewell Purchasing
- Developer Billings
- Outreach/Advocacy
 - Regional Water Authority
 - RMA/RMCC Collaboration
 - Sloughhouse Resource Conservation District Legislative Update – Senate Bill 552
- General Staffing Update
- Conference/Education Opportunities

Under Agenda Item 8B, Paula O’Keefe, Director of Administration, gave the Board the Administration/Finance Report. She highlighted the following topics:

- Reserve Fund Balances
- Interfund Borrowing
- Utility Billing
- Aging Report

Vanessa Burke, PUN Group reported on the FY 2021-22 Audit

Under Agenda Item 8C, Kelly Benitez, Security Supervisor, began his presentation with a letter that he received from a resident praising Gate Officer Karen Hessler. He continued with his update to the Board with a summary of August’s activities in the Security Department, including:

- Operations Update
- Rancho Murieta Association Activity
- Rancho Murieta Commercial Owners Association Activity
- Incidents of Note
- RMA Violation Report
- Gate Entries Denied Reports
- Cases by Breakdown Report

Under Agenda Item 7D, Travis Bohanon, Director of Operations, gave a summary of the utility update, including:

- Water Treatment Facility
- Chesbro Stage Storage Curve
- Water Consumption
- Raw Water Delivery & Storage
- Utility Crew Report
- Infrastructure
 - SB 170 Funded Projects
 - Water Treatment Facility

- Lift Stations
- Development

9. REVIEW DISTRICT MEETING DATES/TIMES FOR DECEMBER 2022

No changes.

10. CORRESPONDENCE

Director Maybee acknowledged the correspondence in the Board Packet.

11. COMMENTS FROM THE PUBLIC

None.

12. CONSIDER SCHEDULING SPECIAL BOARD MEETING TO REVIEW CANDIDATES FOR VACANT BOARD POSITION

There was a brief discussion, and direction was given to decide the new Board member at the December 21, 2022 Regular Board meeting.

13. GM TRANSITION AD HOC COMMITTEE UPDATE

Director Maybee updated the Board, stating formal training has been identified, decisions are being made concerning the recruitment of a General Manager.

14. APPROVE CONTRACT FOR GENERAL MANAGER

Mr. Fritschi reported there were two firms that sent a proposal for recruitment services. **Motion/Maybee to approve contract with MRG for recruitment services for \$19,975. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

15. CONSIDER APPROVAL OF RESOLUTION R2022-24 UPDATING AUTHORIZED SIGNATORIES FOR EL DORADO SAVINGS BANK

Ms. O'Keefe updated the Committee that a Resolution is not necessary to update the signatories for El Dorado Savings Bank. A letter is sufficient. **Motion/Maybee to approve the letter to update the Signatories for Eldorado Savings Bank. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

16. CONSIDER INCLUSION OF OPERATOR IN TRAINING TO PLANT OPERATOR SERIES

Ms. O'Keefe discussed the current Plant Operator Series, stating that it is not connected to the Operator in Training Series, and once an employee has completed the certifications necessary to qualify for the Plant Operator I position, there must be a vacant position in order to promote. By adding the Operator in Training to the Plant Operator series, an employee can promote within the District. **Motion/Maybee to for the reclassification of the Operator in Training position. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

17. APPROVAL OF ORDINANCE O2022-06 ADDING CHAPTER 9 TO DISTRICT CODE – ADMINISTRATIVE CITATIONS AND FINES

Ms. O’Keefe reviewed the Ordinance introduced at the October 19, 2022 meeting. **Motion/Maybee to adopt Ordinance O2022-06 adding Chapter 9 to District Code – Administrative Citations and Fines. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

18. RECEIVE UPDATE ON RIO OSO LIFT STATION AND CONSIDER ACTION TO CONTINUE THE CONTRACTING EMERGENCY DECLARATION BY A 3/4^{THS} VOTE

Motion/Maybee to continue the contracting emergency on Rio Oso Lift Station. Second/Pohll. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.

19. RECEIVE UPDATE ON REPAIRS TO LAKE 11 AND CONSIDER ACTION TO CONTINUE THE CONTRACTING EMERGENCY DECLARATION BY A 3/4^{THS} VOTE

Motion/Maybee to continue the contracting emergency on Lake 11. Second/Butler. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.

20. CONSIDER RESOLUTION R2022-25 ACCEPTING RETREATS EAST INFRASTRUCTURE

Mr. Fritschi asked the Board to accept the infrastructure from the Retreats East and direct him to sign a Bill of Sale. **Motion/Maybee to adopt Resolution R2022-25 accepting Retreats East Infrastructure. Second/Pohll. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

21. CONSIDER LIFT STATION 6B SEWER CREDIT

Mr. Fritschi discussed the Facility Extension Agreement with KHOV and an amendment to the agreement which would provide the Developer with a credit of 24% of the sewer impact fees paid for connections which will equal approximately \$36,861 to partially reimburse KHOV for updates to the Lift Station 6B required based on the capacity that the Retreats East & North will utilize as part of the development project. **Motion/Maybee to have Legal Counsel work with the GM to get an agreement put in place regarding a credit for the 6B Sewer. Second/Pohll. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

22. CONSIDER APPROVAL OF CONTRACT FOR INTEGRATED WATER MASTER PLAN

Mr. Fritschi discussed the scope and fee we received with Water Works Engineers for \$599,000 and a proposal received from Adkins Engineering and Maddaus Water Management joint venture for \$383,000 to complete the Integrated Water Master Plan with the Urban Water Supply Plan Elements. **Motion/Pohll to accept the proposal with Adkins/Maddaus and negotiate to remove the work for the Urban Water and return to the Improvements Committee with the new proposal. Second/Maybee. Roll Call Vote: Ayes: Maybee, Butler, Pohll. Noes: None. Absent: Jenco. Abstain: None.**

23. DISCUSS MEASURE R RESULTS

Director Maybee made a brief statement that the Community had spoken through their votes, and Measure R did not pass Security will no longer be funded through property taxes. Direction was given to Staff to report the final votes when the election is certified.

24. DIRECTOR COMMENTS/SUGGESTIONS

Director Maybee thanked Staff.

25. ADJOURNMENT

**Motion/Maybee to adjourn at 7:46 p.m. Second/Merchant. Roll Call Vote: Ayes: Maybee, Butler, Pohl.
Noes: None. Absent: Jenco. Abstain: None.**

Respectfully submitted,

Amelia Wilder
District Secretary

DRAFT

MEMORANDUM

Date: December 14, 2022
To: Board of Directors
From: Communication & Technology Committee Staff
Subject: December 1, 2022, Communication & Technology Committee Meeting Minutes

1. CALL TO ORDER

Director Butler called the meeting to order at 8:30 a.m via ZOOM video conference pursuant to GOV. CODE, § 54953, SUBD. (E)(1)(C). Present was Director Butler. Present from District staff were Michael Fritschi, Interim General Manager; Paula O’Keefe, Director of Administration; Travis Bohannon, Interim Director of Operations; Kelly Benitez, Security Supervisor; and Amelia Wilder, District Secretary.

2. CONSIDER FINDING THAT AS A RESULT OF THE COVID-19 EMERGENCY: (I) MEETING IN PERSON WOULD PRESENT IMMEDIATE RISKS TO THE HEALTH OR SAFETY OF ATTENDEES; AND (II) THE MEETING IS AUTHORIZED TO BE HELD BY TELECONFERENCE PURSUANT TO GOV. CODE, § 54953, SUBD. (E)(1)(C)

The Committee agreed to have the December meeting via teleconference.

3. COMMENTS FROM THE PUBLIC

John Sullivan asked if there had been a conversation about what would happen with Security now that Measure “R” did not pass. Director Butler advised that he listen to the Security Committee meeting to see if there was an update. Mr. Sullivan offered the hotel if there was a need for a meeting space to hold a Community forum.

4. MONTHLY WEBSITE AND SOCIAL MEDIA UPDATE AND FAQ’S

Amelia Wilder, District Secretary, gave an update of the statistics related to the number of visits per page to Facebook and RMCSO.com. Director Butler commented that the Pipeline is the most important form of communication. Staff reported that there was a total of 2,858 bills sent last month, 730 of them were e-bills. Staff does not know how many people click on the link to look at the Pipeline online. Director Butler would like to know how much it would cost to mail the Pipeline to those who receive the e-bill. She would like to explore having a NextDoor page.

5. DIRECTOR AND STAFF COMMENTS

No Comment

6. Adjournment

The meeting was adjourned at 8:58 a.m.

MEMORANDUM

Date: December 14, 2022
To: Board of Directors
From: Security Committee Staff
Subject: December 1, 2022 Security Committee Meeting Minutes

1. CALL TO ORDER

Director Maybee called the meeting to order at 10:00 a.m. via ZOOM video conference pursuant to GOV. CODE, § 54953, SUBD. (E)(1)(C). Present was Director Maybee. Present from District staff were Michael Fritschi, Interim General Manager; Paula O’Keefe, Director of Administration; Travis Bohannon, Interim Director of Operations; Kelly Benitez, Security Supervisor; and Amelia Wilder, District Secretary.

2. CONSIDER FINDING THAT AS A RESULT OF THE COVID-19 EMERGENCY: (I) MEETING IN PERSON WOULD PRESENT IMMEDIATE RISKS TO THE HEALTH OR SAFETY OF ATTENDEES; AND (II) THE MEETING IS AUTHORIZED TO BE HELD BY TELECONFERENCE PURSUANT TO GOV. CODE, § 54953, SUBD. (E)(1)(C)

The Committee agreed to have the December meeting via teleconference.

3. COMMENTS FROM THE PUBLIC

John Sullivan offered the hotel if the District chooses to have Community forums to discuss the future of Security now that Measure “R” did not pass.

4. MONTHLY UPDATES

Kelly Benitez, Security Supervisor gave the Operations Updates, touching on the following topics:

- Operations Update
- New Patrol Vehicle
- Repairs to the Safety Center
- RMA’s zero tolerance policy for dogs off leash
- Security Camera Update
- Dash Cameras on vehicles

5. DIRECTOR & STAFF COMMENTS

Director Maybee thanked Staff for the great work at Thanksgiving.

6. ADJOURNMENT

The meeting adjourned at 10:51 a.m.

MEMORANDUM

Date: December 14, 2022
To: Board of Directors
From: Finance Committee Staff
Subject: December 6, 2022, Finance Committee Meeting Minutes

1. CALL TO ORDER

Director Pohll called the meeting to order at 10:00 a.m. via ZOOM video conference pursuant to GOV. CODE, § 54953, SUBD. (E)(1)(C). Present was Director Pohll. Present from District staff were Michael Fritschi, Interim General Manager; Paula O'Keefe, Director of Administration; Kelly Benitez, Security Supervisor; Travis Bohannon, Interim Director of Operations; and Amelia Wilder, District Secretary.

2. CONSIDER FINDING THAT AS A RESULT OF THE COVID-19 EMERGENCY: (I) MEETING IN PERSON WOULD PRESENT IMMEDIATE RISKS TO THE HEALTH OR SAFETY OF ATTENDEES; AND (II) THE MEETING IS AUTHORIZED TO BE HELD BY TELECONFERENCE PURSUANT TO GOV. CODE, § 54953, SUBD. (E)(1)(C)

The Committee agreed to have the December meeting via teleconference.

3. COMMENTS FROM THE PUBLIC

John Sullivan inquired about the status of FY 2019-20 audit adjustment journal entries have been finalized, and have the postings been made. Vanessa Burke from the PUN Group responded.

4. UPDATE ON DRAFT BUDGET TO ACTUAL REPORT

Ms. Burke reviewed the Draft Budget with the Committee.

5. UPDATE ON DEVELOPER DEPOSITS

Paula O'Keefe, Director of Administration, informed the Committee that one Developer account had been reconciled for Rancho Murieta North. She is continuing to work on the other accounts.

6. UPDATE ON MEASURE "R" COUNT

Amelia Wilder, District Secretary, updated the Committee on the current count of votes on Measure "R". Instruction was given to report to the Board when the Certificate of Facts was received from the County.

7. DIRECTOR AND STAFF COMMENTS/SUGGESTIONS

None.

8. ADJOURNMENT

The meeting was adjourned at 8:19 a.m.

MEMORANDUM

Date: December 14, 2022
To: Board of Directors
From: Improvements Committee Staff
Subject: December 8, 2022, Special Improvements Committee Meeting Minutes

1. CALL TO ORDER

Director Jenco called the meeting to order at 3:00 p.m. via ZOOM video conference pursuant to GOV. CODE, § 54953, SUBD. (E)(1)(C). Present were Director Jenco and Director Pohll. Present from District staff were Michael Fritschi, Interim General Manager; Paula O'Keefe, Director of Administration; Travis Bohannon, Interim Director of Operations; and Kelly Benitez, Security Supervisor and Amelia Wilder, District Secretary.

2. CONSIDER FINDING THAT AS A RESULT OF THE COVID-19 EMERGENCY: (I) MEETING IN PERSON WOULD PRESENT IMMEDIATE RISKS TO THE HEALTH OR SAFETY OF ATTENDEES; AND (II) THE MEETING IS AUTHORIZED TO BE HELD BY TELECONFERENCE PURSUANT TO GOV. CODE, § 54953, SUBD. (E)(1)(C)

The Committee agreed to have the December meeting via teleconference.

3. PUBLIC COMMENT

None.

4. MONTHLY UPDATE

Travis Bohannon, Interim Director of Operations, gave a summary of the Utilities Department Update with a discussion on the following topics:

- SB 170 Projects
 - Water Treatment Facility Sodium Hypochlorite Conversion
 - Recycled Water Disinfection Project
 - Granlees Safety Improvements
- Water
 - Rio Oso Update
- Sewer
 - Wastewater Facility
 - Lift Station Projects
- Drainage
 - Lake 11 Project
- Site Development Update

5. CORRESPONDENCE CHRIS PAHULE, SACRAMENTO COUNTY

Michael Fritschi, Interim General Manager, updated the Committee on the letter received from Chris Pahule at Sacramento County. A discussion on the timing of action items in the letter followed.

6. INTEGRATED WATER MASTER PLAN CONTRACT

Mr. Fritschi updated the Committee on the status of the contract with Adkins Engineering and Maddaus Water Management, Inc., stating that per direction of the Board given at the November 16, 2022 Board Meeting, he has requested that the proposers revise their fee proposal and remove the Urban Water Study elements from

the scope of services. The proposers reduced their fee from \$383,000 to \$295,000 based on the reduction of the scope of services. Lisa Maddaus with Maddaus Water Management was on the call and commented on the methodology that would be used in preparation of the report. It was commented by Ms. Maddaus that the two firms would take a fresh look at all of the information currently available, including climate change. Brad Sample asked several questions about Climate change, and future water availability, which will be answered by Ms. Maddaus if she is awarded the contract. John Merchant commented that he would like to see public meetings with the winning consultant. The Committee agreed to take the revised contract to the Board for approval. ***This item will be on the December 21, 2022 Board Meeting Agenda.***

7. DISTRICT ENGINEER TASK ORDER STATUS

Mr. Fritschi explained the task order spreadsheet that had been created to keep track of all of the tasks the District Engineer is working on.

8. DIRECTOR AND STAFF COMMENTS/SUGGESTIONS

None.

9. ADJOURNMENT

The meeting was adjourned at 3:54 p.m.

PREPARED BY: Paula O'Keefe

REVIEWED BY:  District Treasurer

MEMORANDUM

Date: December 8, 2022
To: Board of Directors
From: Travis Bohannon, Interim Director of Operations
Subject: Approval of Lake and Wastewater Treatment Lagoon Management Services

RECOMMENDED ACTION

Approve the renewal of (1) contract from SOLitude Lake Management. The contract renewal is for the monthly maintenance services of the District Wastewater Treatment Lagoons, in an amount not to exceed a total of \$27,300.

BACKGROUND

The wastewater lagoons continue to require monthly maintenance to keep the lagoons in a more acceptable and useable state to accomplish adequate primary treatment.

The District does not currently possess the level of expertise needed to properly maintain the lagoons and should refrain from any future self-applying of any herbicides/algicides.

SUMMARY

This contract renewal is being brought to the board in the spirit of transparency and for approval by the Board.

8D. SOLitude Contract - Pending

Notes to Budget and Actual:

- (a) Property taxes are received in two installments during the year (generally January and May) with a supplemental installment received in August. Amount received of \$20,752 will be accrued back to the Fiscal Year 2021-22 in accordance with GASB standards.
- (b) Administrative allocations are made at the end of the fiscal year during the closing process for the external audit.
- (c) Property taxes are allocated as approved per budget resolution to Wastewater, Drainage, Solid Waste and Security
- (d) Interfund transfers offset at a District-wide level.

MEMORANDUM

Date: December 19, 2022
To: Board of Directors
From: Michael Fritschi, P.E. – Interim General Manager
Subject: Integrated Water Master Plan Contracting

Recommended Action

The Improvements Committee has directed staff to bring to the Board the contract with Adkins/Maddaus in the amount of \$291,031 to complete the Integrated Water Master Plan.

Background

On August 4th, the District sent out a request for proposal (RFP) for updating the District Integrated Water Master Plan (IWMP) and completing the elements of the Urban Water Management Plan (UWMP) (for future use). RFP's were listed in the California Special Districts Association (CSDA) and RMCS D websites and were sent directly by email to (7) specific engineering firms known to have specialization in water expertise.

The RFP announcement was sent directly to the following firms:

- West Yost & Associates
- HDR
- Dudek
- Domenichelli (our District Engineer)
- SHN Engineers
- Adkins Engineering
- GHD

The RFP's were due on the 19th of September.

After receiving only one proposal, the RFP was extended to November 3. After the RFP extension, the District received only one joint venture proposal. On November 4th the District attempted to contact (5) additional firms directly to obtain a scope and fee in which to compare the single joint venture proposal:

- Black & Veatch
- Keller & Associates
- Carollo
- Brown & Caldwell
- Water Works

The District also followed up with several firms that the District had directly sent RFP's to. The following table summarizes communication or attempted communication with (13) firms regarding the IWMP and UWMP RFP's:

Adkins Engineering	Submitted joint venture proposal
Black & Veatch	No Response to inquiry
Brown & Caldwell	No Response to inquiry
Carollo	No Proposal - They mentioned that they saw the RFP on the CSDA website, but did not have the resources to complete the work at this time.
Domenichelli (our District Engineer)	Did not feel comfortable proposing based on District Engineer status
Dudek	No Response to RFP
GHD	No Response to RFP
HDR	No Proposal - They mentioned that they did not have the resources to complete the work at this time.
Keller & Associates	Discussed with representative, but no scope and fee proposal submitted
Maddaus	Originally saw on the CSDA website. Submitted joint venture proposal
SHN Engineers	No Response to RFP
Water Works	They saw the RFP on the CSDA website, but did not have the resources to complete the work at this time. Contacted directly and the District received Scope and Fee Proposal
West Yost & Associates	No Response to RFP - They have submitted several recent proposals and have not won any work recently

It was determined with the private conversations with some of the engineers, that consulting firms are currently very busy with projects and do not have the adequate staffing to accommodate additional workloads at this time. It is uncertain when this situation will improve.

Staff provided the limited RFP response information, including the cost to complete the IWMP/UWMP work per the joint venture proposal of Adkins/Maddaus (\$384k) and the scope and fee estimate provided by Waterworks Engineers (\$599k) directly to the Board at the November 16th Board meeting as an agenda item.

After some discussion, the Board directed the General Manager to negotiate the contract with the Adkins/Maddaus joint venture for the IWMP with the removal of the UWMP component and to submit that updated contract price to the Improvements Committee at the next Improvements Committee meeting.

After discussing this with Adkins/Maddaus, it was determined that the cost to perform just the IWMP is estimated at \$291,031. (See supporting attachments from Adkins Engineering). The next step was to provide direction to staff on furthering the contracting process. If the Board prefers to continue contracting process, the District would engage Counsel to assist in completing a standard consulting contract with the joint venture for a time and materials, not to exceed limit

of \$291,031 to complete the IWMP. A total of \$250,000 has been budgeted for this effort in the current capital improvement plan.

On December 7, 2022, the Improvements Committee reviewed and discussed the proposed contract. At that meeting the Committee heard public comments from (2) members of the general public regarding concerns of the quality of the proposed integrated water master plan and the overall impact of this study on future water supply and allocation. Lisa Maddaus, a consultant from the proposed joint venture also spoke to the Committee, discussing her expertise and project approach. The Improvements Committee then directed the General Manager to bring the contract to the Board for approval at the December 21 Board Meeting.

MEMORANDUM

Date: December 21, 2022
To: Board of Directors
From: Michael Fritschi, Interim General Manager
Subject: General Manager's Report

WATER & DROUGHT RELIEF

DROUGHT RELIEF GRANTS

The District met with a representative from Adkins Engineering to discuss applications to the Small Community Drought Relief Grant. This grant would provide substantial funding to projects like rain water to recycled water expansion projects. Staff plan to contract with Adkins on a time and materials basis to complete the grant application work, which will include developing a conceptual rain to recycled water project.

CHESBRO SURVEY RESULTS

The District has received the results from the updated bathymetric survey of Reservoir Chesbro. Prior to releasing the results, Staff had to verify the datum used for the daily measurement to ensure that the updated stage storage curve was being compared correctly to the prior stage storage curve. According to the recent bathymetric survey, Reservoir Chesbro has approximately 75 less acre-ft of storage capacity (about 7% less) than previously assumed based on the old stage storage curve.

DEVELOPMENT

DEVELOPER REIMBURSEMENTS

Staff have contacted Economic Planning Systems (EPS), the District third party that facilitates the reimbursements for the phase 1 water treatment plant expansion. Staff are in the process of determining the reimbursements to entities with reimbursement rights. Once this is determined the District will fulfill their role in the reimbursement process as needed and required.

DEVELOPER BILLINGS

Work has been prioritized to make progress in bringing past developer accounts current. Staff have begun conducting the necessary research and have brought Rancho North up to current and is in the process of computing billing for the Retreats. It is the District's goal to restore the process of providing quarterly statements.

PHASE I PROJECT OVERRUNS & PHASE II WATER PLANT FUNDING

The Pun Group has determined that the bond funded \$540,000 earmarked for Phase II Water Plant Improvements are in compliance with Federal (IRS) requirements. Staff are working with Counsel to determine a better accounting of the Phase I project cost overruns and the \$540,000 earmarked for Phase II. When complete, a memorandum will be completed to memorialize the findings and will be presented to the Board.

OUTREACH/ADVOCACY

RMA/RMCC COLLABORATION

The District has established a monthly General Manager informational and collaboration meeting with the Rancho Homeowners Association and the Country Club General Managers to better increase communications and collaboration between the three entities. On December 6th, a meeting was conducted with the General manager of the RMA and a monthly meeting date of the first Tuesday of every month has been established.

SECURITY

SAFETY CENTER UPDATE

Staff met with Gordian representative and a pre-vetted contractor to review the necessary repairs to the Safety Center. The District will receive a bid to perform the repairs and will bring the proposal to the next Security Committee meeting. Gordian is a subsidiary of Sourcewell, a third party that competitively “pre-bids” goods and service providers to meet public procurement requirements.

MEASURE R UPDATE

The final certified tally for Measure R shows 1,446 yes votes received and 2,107 no votes received.

ADMINISTRATION

GENERAL STAFFING UPDATE

The District has hired Alayna Cosens a temporary Office Technician who staff will also be training for utility billing duties. Staff have re-posted for the utility billing replacement position and interviews should begin in January.

REVISION OF EXISTING FEE SCHEDULE FORMATS

Staff have completed a revised fee schedule format that will aid staff and potential customers in having a more complete understanding of how fees are levied and how to better calculate accurate connection fees. The fee schedule has been updated per the ENR 20-City Construction Cost Index will be posted before the beginning of the new calendar year.

CONFERENCE/EDUCATION OPPORTUNITIES

CSDA LEADERSHIP CONFERENCE

California Special Districts Association (CSDA) offering Leadership Academy Conference February 26-March 1 (La Quinta) and October 22-25 (Santa Rosa). This could be a good opportunity for a new Board Member to get up to speed on Special District governance.

COUNTY OF SACRAMENTO VOTER REGISTRATION AND ELECTIONS CERTIFICATE OF FACTS

STATE OF CALIFORNIA }
County of Sacramento } ss.

I, HANG NGUYEN, Interim Registrar of Voters of the County of Sacramento, State of California, do hereby certify that **Measure R** (shown below) was submitted to the known electors in Sacramento County in the Rancho Murieta Community Services District at the November 8, 2022 General Election.

BALLOT QUESTION

To prevent crime and better protect the lives and property of Rancho Murieta owners, residents, and businesses, continue to provide the current level of security patrols, and continue gated security 24 hours per day, year-round, shall the Rancho Murieta Community Services District ordinance to levy an annual supplemental security special tax of \$316 per parcel, including an annual inflation adjustment, providing \$872,000 annually in locally-controlled funding, until ended by voters be adopted?

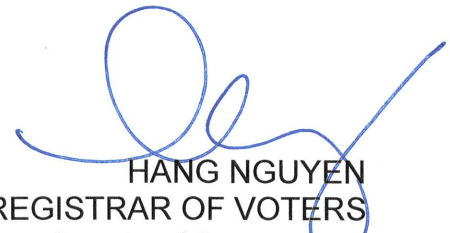

The results of the Official Canvass conducted by this office are as follows:

<u>YES VOTES</u>	<u>NO VOTES</u>
1,446	2,107

I further certify that the conduct of the election and canvass of the ballots was, in every respect, in accordance with the election laws of the State of California.

IN WITNESS WHEREOF I have set my hand and affixed my official seal on this **7th day of December, 2022**, in accordance with the laws of the State of California.

HANG NGUYEN
INTERIM REGISTRAR OF VOTERS
County of Sacramento
State of California

MEMORANDUM

Date: December 16, 2022
To: Board of Directors
From: Paula O'Keefe, Director of Administration
Subject: Administration / Financial Update

On December 6, 2022, the Finance Committee met and discussed the following items:

- Update from PUN Group on Budget to Actuals for July and August 2022
- Developer Deposit Update
- Measure R Election results

The following is the summary of the December 2022 monthly Board Financial Report. The following are highlights from various internal financial reports. Please feel free to call me before the Board meeting regarding any questions you may have relating to these reports.

Tyler Technologies Implementation

The Tyler project team is currently working on the configuration and inclusion of the District's utility billing information into our Utility Billing Module for the development and testing phase of implementation. Staff expect to begin training in the test environment in late January through March for an April 2023 "go live".

In the interim, staff met with the Tyler Financial Implementation project lead for a full week to discuss the "Current Future State Analysis" (CFSA) for financials. This process delves into the current working operations of all financial systems and reviews processes, internal controls, policies and procedures and provides the Tyler Technologies team with a better understanding of our existing operations limitations and needs for the new system. The Tyler Technology Financial Project Lead will create a project timeline for the financial operations development and implementation with the expectation of a potential "go live" date of July 2023. This will also include HR/Payroll development and implementation.

Monthly Budget to Actuals

Monthly Budget to Actuals have been presented by the PUN group for the months of July and August.

Procurement and Contracts

The District recently contracted with Municipal Resources Group (MRG) to begin the recruitment for the General Manager position.

Reserve Fund Purchases authorized by the General Manager

No purchases at this time.

Reserve Funds Balance Sheet

Staff are presenting the projected beginning balances of FY 2022-23. It is important to note that the final reserve totals are dependent upon year end close and are not finalized for FY 2020-21 at this time. Additionally, due to minimal staffing capacity, July and August entries are pending at the time of this report.

WTP Construction Loan from WSA	148,264	132,602	3,908	23,485	124,779
Total Inter-fund Borrowing	593,038	530,392	15,632	93,939	499,099

Utility Billing

The District continues to work with residents each month to prevent water shutoffs. District staff continue to enter into new payment installment agreements to resolve outstanding payments and bring these accounts current and in good standing, however there are still residents who are not current on their bills. The District has locked off three residents and continues to work through the most egregious outstanding balances. Currently the district has 24 residents who are 90 days past due. We appreciate the residents who have been proactive in contacting us and working with us to bring their accounts current.

We encourage residents to work with the District to prevent additional late fee assessments and highly encourage all residents with past-due balances to contact the District immediately to rectify their account status. If entering into a payment plan, you are required to pay your monthly balance (including past due balance) in full or it will void the terms of the payment plan agreement. This means the account is now due and payable immediately and District staff will initiate the 10-day shut off notification. The District has encountered several residents who entered into payment agreements and subsequently voided them after nonpayment, however those residents brought their accounts current immediately in order to prevent utility shut offs.

Aging Report

The total amount due to the District for outstanding 60 and 90 day past due balances is \$45,994.85. There are 83 residents who are 60 days past due and 37 residents 90 days past due. The 90 days past due balances ranging from \$0.50 to \$5,096.32.

Bills Paid List

Attached is the "Bills Paid" check register and PayChex reports reflecting checks (including voided checks) ran for the month of November 2022.

MEMORANDUM

Date: December 21, 2022
To: Board of Directors
From: Kelly Benitez, Security Supervisor
Subject: Security Update Report for the Month of November

OPERATIONS UPDATES

The Department is currently working on the following projects:

- Currently we have 8 full-time gate officers and 4 patrol officers. 2 open part-time
- Gate officer positions open and one patrol position.
- Utilizing only 1 ABA contract security officer for days off and vacation relief.
- Patrol non-covered shifts: 434 hours in 2022, Covid-19, and no overtime allowed to fill in patrol shifts.
Safety Center Repairs – waiting for a bid from Staples Construction
- Toyota Truck in process/Donations

Rancho Murieta Association activity:

We continue to work with the RMA Leadership on a regular focus to improve our level of service and have positive contact with residents. The following list is the current focus of our meetings.

- General non-arch rules enforcement (see Violation Summary Report): continued to attend RMA Compliance meetings.
- Spoke with the Director of Compliance (Chris Smith)
- A) Boat Tickets
- B) Stop Signs (Dash Camera)
- C) Zero Tolerance for dog off-leash policy.
- D) Didn't cite for Halloween House

Other Rancho Murieta activities:

INCIDENTS OF NOTE
November 1-30

On Friday, November 11, 2022, at approximately 2245 hours, CSD patrol was on routine patrol when the security officer observed a gathering in the Plaza Area. The officer believed it was a gathering of juveniles and parked his vehicle and walked over to the gathering. Upon his arrival, he discovered several adults celebrating the grand opening of a day spa. The officer chatted with the owner's father for approximately 10 minutes and proceeded back to his awaiting vehicle. As the officer approached his vehicle, he observed that an unknown person had driven off with his security vehicle. The suspect had relocated the vehicle to another parking lot approximately 50 yards away. The officer approached the female suspect as she exited the vehicle and advised her, she had no right to take the vehicle. The female scolded the officer for leaving his vehicle running with the keys inside. The officer asked for her ID and she stated, "you're not a cop" and was driven away in a waiting vehicle. The officer contacted the CHP with the license plate of the suspect's vehicle for a report.

On 11/29/2022 at 0800 hours, a CSD patrol officer was conducting stop sign violations at the intersection of Alameda Drive and North Murrieta Parkway. CSD staff then observed a green Subaru driving at a high rate of speed and failing to yield for the stop sign. CSD patrol then followed the violator who also drove through the intersections at Guadalupe and North Murrieta Parkway without attempting to slow down or stop at the stop sign. The violator then made a right-hand turn on Del La Cruz drive, without stopping at the stop sign.

CSD patrol officer then approached the violator at the construction site of the retreats. CSD staff attempted to get the driver's information to report the incident to the project manager and the violator stated, "you're not a cop" and that he was late for work. This incident was reported to RMA who investigated the incident and the violator/contractor was terminated from the work site.

MEMORANDUM

Date: December 14, 2022
To: Board of Directors
From: Travis Bohannon – Interim Operations Director
Subject: Operations Report

WATER

Water Treatment Facility

Water Treatment Facility #1 is currently offline for annual cleaning and maintenance. Plant 2 is in operation and is currently producing potable water at a rate of 1.0 mgd.

Water Consumption

As of December 14th, cumulative potable water production for the year totaled 544 million gallons, 11 million gallons (2.0%) less than the same use period in 2021 and 5 million gallons (0.9%) less than 2020.

Raw Water Storage & Delivery

As of December 14, 2022, the total water currently stored between Clementia, Chesbro, and Calero totaled 3006 acre-ft (979.4 MG), 8.0% less (241 acre-ft)(78.5 MG) than at this time last year. (All lakes full = 4394 Acre-ft / 1.518 billion gallons).

As of December 14, 2022, we have pumped about 245 acre-ft (80 MG) from Consumnes River this pumping season.

Table 1. Current water and wastewater storage comparison from 2021 - 2022

	November 2022		November 2021		difference from 2021	%diff
	mgal	acre-ft	mgal	acre-ft		
Clementia Storage	229.5	704.4	266.4	817.4	-113.0	-13.8%
Chesbro Storage	341.5	1048.1	339.2	1041.1	7.0	0.7%
Calero Storage	358.1	1098.9	423.0	1298.1	-199.2	-15.3%
Total of all Raw Water Reservoirs	929.1	2851.4	1028.6	3156.6	-305.2	-9.7%
Wastewater Storage Reservoir available for production	29.2	89.8	44.6	136.9	-47.1	-34.4%

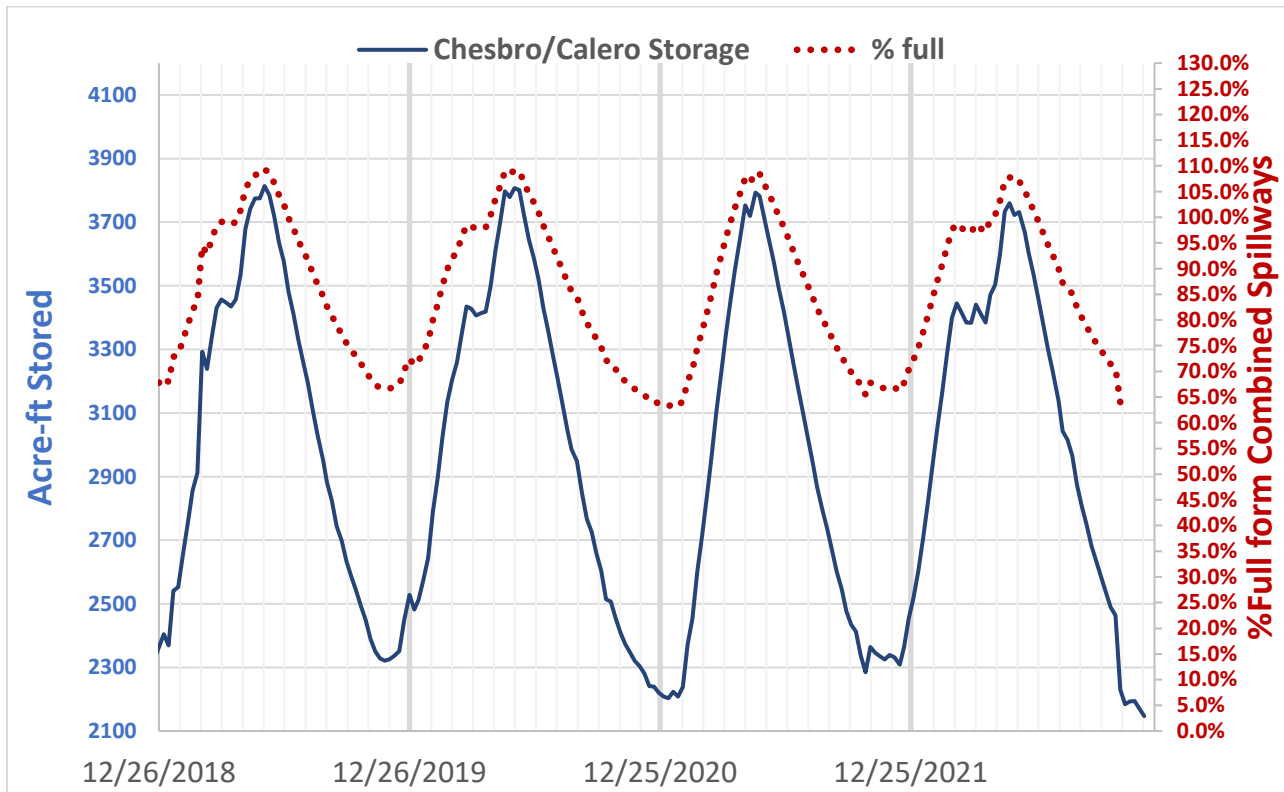

Figure 1. Four-year Chesbro / Calero Storage Curves

NOTE: It is worth noting that this year the levels in Calero / Chesbro were at the lowest level at the start of pumping season than within the past 5 years.

Figure 2. Four-year Clementia Storage Curves

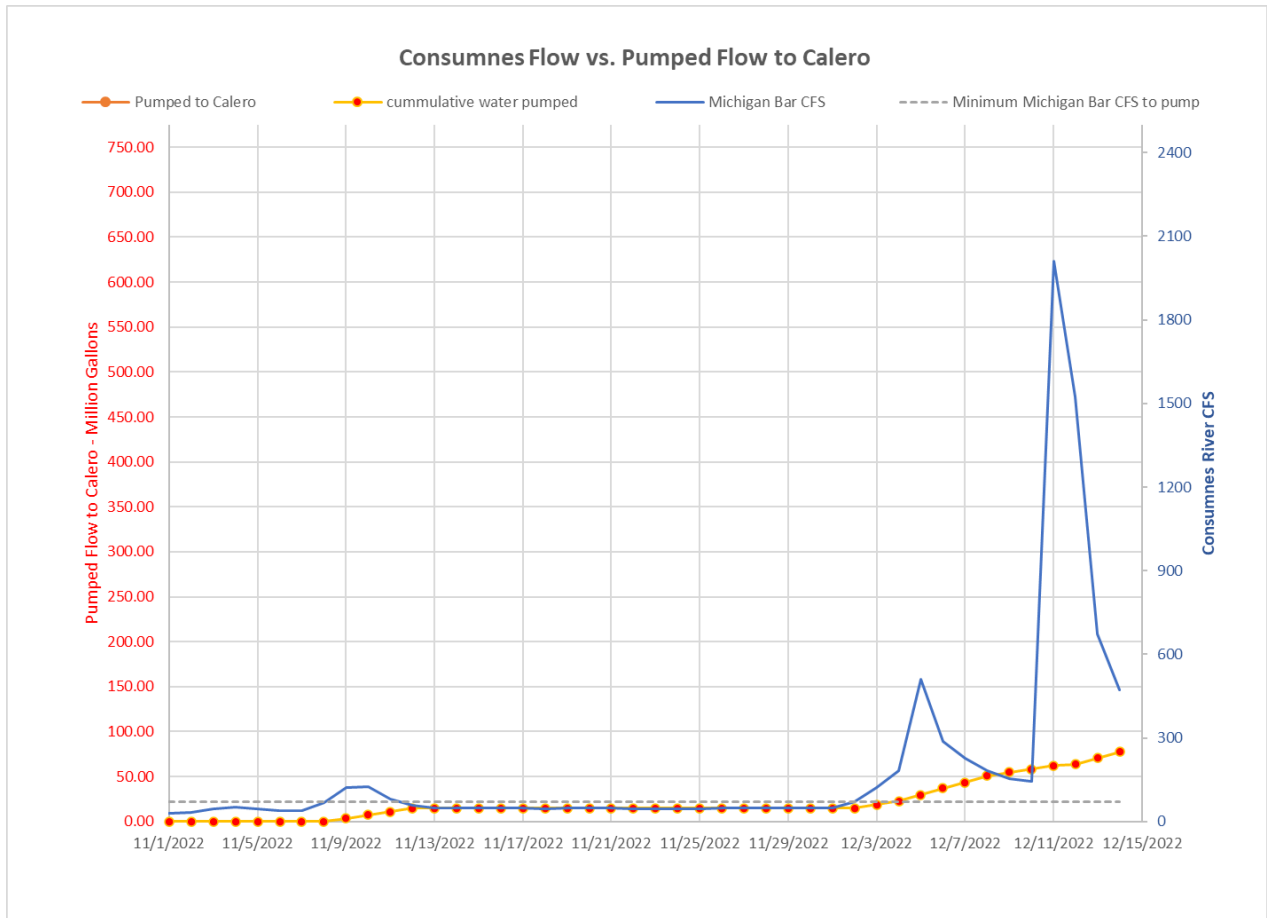

Figure 3. Consumnes River Flow vs Gallons pumped to Calero

Figure 3 is a graph that shows the flow in the Consumnes River in CFS and the cumulative water pumped for the current pumping season. The blue line indicates the flow in the Consumnes River. The dotted yellow line shows the amount of water pumped to date for the current pumping season. As you can see by the graph, the district did not get to pump much in the first month of the pumping season due to the low flow in the river. Also, what should be noted is that the flow in the river is quick to go up, but also just as quick to go down.

SEWER

Wastewater Facility

The wastewater facility is off for the season. Matt from Dewberry Engineers was onsite on December 5th to inspect the contact chamber for design purposes.

Our annual contract has come up for renewal for the aquatic maintenance of our wastewater ponds and storage reservoirs. The annual agreement is an agenda item at the current Board Meeting.

UTILITY

Utility Crew Report November 2022 – James Colas

- 6 Utility star work orders were completed.
- 6 - 811 USA locates markings were completed for water leaks.
- 3 homeowner calls for water related problems.
- 9 water leaks repairs, 6 service lines replaced, and 1 saddle replaced at watermain.
- 4 valves exercised and flushed.
- 1 meter replaced.
- Collection system cleaning jetted 5,170 ft.

INFRASTRUCTURE

SB 170 Funded Projects – An update of the SB 170 funded projects are as follows:

Water Treatment Facility Sodium Hypochlorite Conversion – No update since last month, HDR is working on the 100% design.

History: HDR has completed the design to the 60% level Design. The 60% design provided an AACE Class 2 construction cost range of \$520,000 - \$660,000 (not including design costs). The District had previously envisioned \$892,500 to complete the project, with \$352,000 allocated from the SB 170 funding. Adding in the \$238,300 design fees would bring the range of estimated total cost of the project to \$758,300 - \$898,300.

Recycled Water Disinfection Project – Matt from Dewberry Engineer was onsite on December 5th to inspect the contact chamber for design purposes.

Granlees Safety Improvements – The District is looking into utilizing the District Engineer for design services based on the limited scope of this project.

History: The District has received the preliminary engineering report (PER) for the Granlees safety improvements. The report has been reviewed and the district provided comments to HDR. The preliminary engineering report provided an AACE Class 5 construction cost range of \$300,000 - \$720,000 (not including design costs). The district had previously envisioned \$945,000 to complete the project, with \$170,000 allocated from the SB 170 funding.

The district performed a condition assessment in the forebay structure. This procedure required isolating the structure and utilizing RMCS equipment to clean out accumulated debris. The condition assessment will be referenced during the design phase for any potentially needed structural repairs.

Lift Stations – Task orders are being prepared for the work needed.

History: Staff met with the District Engineer and will be reviewing and approving a design task order approval for various upcoming lift station rehabilitation projects:

Lift 3B - Pumps have been delivered and are ready for installation once the design and bid information are completed.

Alameda & Starter Shack Stations – The District is planning on working with the District Engineer on replacing these antiquated stations with prefabricated package stations. This work will be designed and completed this fiscal year.

Cantova & FAA Stations – Staff sent necessary information to Holt of California, so they can locate generators for both stations and submit pricing information. The District will also evaluate options for proper maintenance access to the FAA lift station.

DEVELOPMENT

Riverview: Concrete and paving are completed. Contractors are now raising iron and setting meter boxes. The contractor has hydro seeded the site and upgraded its SWPPP plans.

Retreats: Water meter and services have been installed in the two model homes per contractor's request. The contractor has installed all the water meter boxes. Street lighting and street signs installation is ongoing. Our district inspectors are working with their SWPPP contractors to ensure all project grounds are secure and contained. A punch list is being created for the North utilities.

Residences: No Update since last month.

Circle K/Shell: Gas station concrete slab and awning are built. The contractor is working on getting their fire service installation approved by the Fire Marshall. The contractor is continuing construction on the Circle K building.

Murieta Gardens Lot 2 (Tractor Supply): Contractor has completed most all main structures including patio walkways and driveways. Contractor continues working most on the building amenities including landscape and other portions of the project. Their goal is to be all finished by late January.

Murieta Gardens Pet Hospital (Lot 12): Signs announcing project and SWPP plans are displayed.

Murieta PDF Office (Lot 10) – No update

Subject: Water leak fix on Cozumel

Michael,

I am sending you this email to acknowledge the following CSD maintenance crews and Travis as employees doing an outstanding job in fixing the potable water leak on Cozumel Drive. On November 16th Travis, James and the rest of the maintenance crew arrived to assess the water leak in the street that had been going on for months. The resident and myself had called CSD about the leak that was making the resident's front lawn a wetland mess as well as seeping under his driveway. Travis and James immediately identified the problem and placed the water leak on the schedule for repair. The maintenance crew came back to do the repairs once SMUD had identified their lines. Under James' directions the crew of 3 made the repairs swiftly without causing any traffic interruption to the adjoining neighbors.

At this point I want the Board and staff to know how truly fortunate CSD is to have a maintenance crew, who stress their skeletal bodies daily doing the load bearing work to maintain our aging infrastructure. Not only did they preform the job required but they put the true meaning of the "S" (service) back in CSD. James came to my home to let me know if I every have any other maintenance issues to please call him or Travis directly. That is what has been missing for so many years, the "S" in CSD that James just provided. It is to my amazement that a crew of 3 people can accomplish so much in keeping the aging infrastructure working on a limited budget and with the very low number of employees.

Please share this email with the Board and place this email in the personnel files of the above employee to acknowledge their contributions to CSD and the Rancho Murieta community.

Sincerely,
Betty Ferraro

Dear Board Members and Ms, Amelia Wilder

I appreciate your explanation. However, an engineer who has completed studies (with assumptions that are overly aggressive - per the County peer review) should not be doing the new report, for the simple fact that they will most likely defend their prior conclusions. I feel the Board will be wasting the District's money if a new firm is not utilized and stand firm regarding my original objections.

>

> Good afternoon,

>

> Thank you for your email. We appreciate your input and concern for the District. I hope that this will help clarify the process:

>

> When a public agency utilizes a consultant to perform a study (or design work), a request for proposal (RFP) is provided. The RFP typically lists the scope of what the agency desires to be completed, a tentative schedule, and specific format of the requested proposal. RFP's have a due date in which the proposals are due to the agency. Most RFP's run from 3 to 8 weeks, sometimes longer based on the needs of the agencies.

>

> RFP notices are typically posted on agency websites and special industry appropriate websites. In RMCS D's case, the appropriate industry specific website would be the California Special District Association, a clearing house for all of California's special districts, and a very convenient "one stop shop" site for firms to seek potential work and clients. Agencies tend to also send out copies of RFP's to local area consultants or consultants which the agency has worked with in the past, or consultants who have reached out to the agency in the past.

>

> Once the proposals are received they are reviewed by a committee within the agency. A proposal is typically rated by the quality of response including:

- > • an understanding of the scope of work
- > • the specific experience of the personnel that would be assigned to do the proposed work
- > • the firm experience specific to the proposed work
- > • the approach taken to perform the work
- > • references by other agencies that utilized the firm

>

> The selected firm is typically invited to create an agreement with the agency to perform the scope of work. In some cases, an agency will receive a low number of proposals or no proposals at all. This can be an indication that the industry may be in a "sellers' market", meaning that there are more agencies wanting work done than firms to complete work. This is an unfortunate trend in the engineering field that the District has experienced over the last year.

>

> What is not always understood is when an engineering firm submits a proposal, there is a significant cost to firm staff time to put the proposal together, meet with the client and submit a quality proposal. A firm makes a "go/no-go" decision based on the need to bring in business, ability of the firm and current competition and weighs this information against the estimated cost to produce the proposal. When an agency receives a proposal from a firm and cancels an RFP process or negotiates a contract outside of the process, this unfairly penalizes the firm that invested in the proposal process.

>
> Professional ethics would dictate that any qualified firm that submits a proposal should be considered for the work. In the absence of competing proposals, that sole firm or joint venture should be considered to perform the work for the agency. If an agency continually disregards the RFP process, and chooses to hire outside the RFP process, or continually extend RFP deadlines, the agency could run the risk of getting a bad reputation with firms.

Dear Board, I am writing you on my phone, in Australia, so I will be very brief.

I know that you will soon make a decision on the company that will lead the study of our water supply. This is a critical decision! I can tell you that, as a working geologist with 50 years experience, we will be unable to drill wells to meet our future needs. Indeed, climate change will not allow us to supply water to current customers, without conservation!

This is a dire situation! Money will not solve this problem.

Please make sure board members get my comments.

From: [Lise Smith](#)
To: [Amelia Wilder](#)
Subject: RFP
Date: Tuesday, December 6, 2022 7:55:19 AM

Please forward this message to the Board.

To whom it may concern:

We recently received a letter stating that there is a considerably less water in Lake Calero than previously reported. With the increasingly reports of the drought getting worse every year, and the water restrictions being imposed, it does not make sense to use the same company that reported the RFP prior be the same company used this time.

As a community member, I am stating my concerns and request that the board insist on using a separate company and put out bids until there are at least three bids to be reviewed before making a selection to contract with any company.

Please reconsider any decision to use the previous RFP company. We need to have an impartial evaluation of the water availability in our community before any more building is done. ONE THOUSAND MORE HOMES DOES NOT MAKE SENSE IN THIS CLIMATE HISTORY AND FUTURE CLIMATE ISSUES!

Thank you for listening to me.

Attachment via email

To: CSD Board of Directors Jenco, Pohl, Butler & Maybee

cc: Gail Bullen, Michael Fritschi, Amelia Wilder (for board communication and committee packet inclusion)

From: John Merchant

Subject: Comments to items 5 & 6 Improvements Committee Agenda for meeting date December 7, 2022.

I apologize for the late delivery of these comments. The public is not informed of the agenda and provided with a packet until the Friday before the Tuesday meeting. The current packet contains a letter from Chris Pahule, a lead planner at Sacramento County Planning. The packet also includes a memo to the improvements committee from Mr. Fritschi. Michael asks the committee to recommend that the CSD Board award Maddaus Water Management (MWM) a contract to prepare an Integrated Water Master Plan (IWMP) in 2023.

Maddaus Water Management Contract Award:

I respectfully disagree with Mr. Fritschi in his assessment that MWM is the best choice for this project. I also contest that RMCSD has fully satisfied the search for the best consultant to prepare a IWMP. Michael has encountered difficulties encouraging additional vendors to bid on this project. However, I do not believe CSD has fully exhausted the pool of talent that is available to perform this work and that a vendor selection is premature. While researching the Folsom 2020 Urban Plan, I contacted WSC, the consultant for Folsom's 2020 Urban Water Plan. I spoke at length with Rob Notoli, a water engineer in the WSC'S Folsom office. Mr Notoli stressed WSC's extensive experience with IWMP and urban water plans. WSC was anxious to schedule a team meeting and suggested six days and times that they would make themselves available. After our discussion, WSC followed up immediately with Mr. Fritschi. Reviewing the WSC website (<https://expectwsc.com>), I found WSC's credentials most impressive. They have capacity and are eager to discuss our project in detail. I also have information about the Folsom 2015 plan, prepared by

another consultant. I am happy to share this. I see no reason to engage any firm until RMCSD has fully exhausted this talent pool.

The selection of MWM gives me great concern. Ms. Maddaus has managed both the 2010 IWMP (as the lead engineer for Brown & Caldwell) and the 2016 Water Supply Assessment since rejoining her family firm. I see this akin to retaining the same auditor year after year. There is an “unintended bias” that results from repeatedly focusing the same eyes on repetitive analysis. Ms. Maddaus prepared a Water Supply Assessment from the same IWMP she created in 2010. She was, in fact, being asked to validate her own work. This is NOT healthy.

Our 2006 IWMP was prepared by HDR and it is easy to identify distinct differences in both the approach and the recommendations in the 2006 and 2010 IWMP. These are healthy comparisons and support the introduction of new consultants into the mix.

This is the most important study this District has prepared and it will assess the impacts of 1000 new dwellings on our water supply. Both the 2006 and 2010 IWMP created doubt and concerns about water supply capacity. Many in our community continue to doubt the District’s ability to support such substantial growth. The selection of a “fresh face” will minimize a perception that the “good old boys” have recruited another of their “good old consultants.”

This IWMP is being bid as a joint venture by MWM and Adkins, an engineering company based in Oregon. I question the double billing and the potential confusion arising from two “principal consultants.” I also question the experience of Adkins to perform this complex analysis. I can find no evidence of water planning experience or execution of previous plans on their website.

My final concern is MWM and Adkins have omitted a budget and cost line for any public, board and staff workshops. There is no evidence that the bidders have considered any cost for public outreach. Historically, especially in 2006, we had five public meetings as the IWMP study progressed.

The lack of confidence in the 2006 IWMP brought about a IWMP “peer review” ordered by the Sacramento County Board of Supervisors. It is

possible this will happen again if the vendor selection and bidding process create ratepayer distrust or if the selection appears to be “developer friendly”. The 2006 peer review reinforced many ratepayer concerns, particularly the potential for “stage 5”, fifty percent conservation levels in drought years. This understanding the “assumption of risk” asked of our present residents is a key issue. It is imperative the community understand what may be asked of them.

The board is working hard to regain the trust of the community. I think the “rush” to fill this contract will bring about more (not less) trust in the board. Many residents believe we have water issues that relate to the development of more than 1000 homes. Please do not shortcut this process. Find additional, qualified firms to consider before you solely award MWM with this contract.

Letter: Chris Pahule to Michael Fritschi (see packet)

I believe this letter creates an illusion that is far from the actual reality of this incomplete development application. It is similar to the 2014 illusion that was created around the “need for speed” to build a new water plant. Sacramento County disallowed the hotel project “until such time as a new water plant was completed”, This created a “developer generated” sense of urgency which ultimately caused the water plant project to begin without an approved contract or a valid bid. The result of that exercise is now fully on display. The plant cost nearly \$14,000,000. It was well over budget and delivered extremely late to the original schedule. This will happen again if we do not attract additional bidders, review pricing and execute a proper contract. This project, is far from ready to warrant the announcement of a notice of preparation (NOP) which will begin the formal preparation of an EIR.

YOU HAVE TIME! IF YOU WISH TO EXTEND THIS BIDDING PROCESS TO THE END OF FEBRUARY, YOU CAN DO SO WITHOUT CONCERN

The Rancho North project was modified and resubmitted to the County on March 30, 2022. The submittal was, once again, rendered incomplete and a notice was sent to the developer notifying him of each deficient item. These include, but are not limited to: a complete traffic study (TSMP) a

new tree inventory, detail on which trees will be removed in every village, trail compliance (RMA), density issues (cluster homes & accessory dwellings) and a host of incomplete technical studies. In addition, a drainage plan, submitted to RMCS D for comment, was submitted and remains in the county file. However, this plan never answered ANY of CSD's concerns about the inadequate plan that was submitted and reviewed by the District. RMCS D flatly rejected this plan and communicated this decision to the planning department. If the county were to permit an NOP to be issued before the required submittals are complete, it will be vigorously contested at the scoping meetings. Let me be clear that since the March 30, 2022 revision of the development, not a single document has been submitted to support the new proposal.

The Water Supply Assessment, issued by the district in 2016 took six months to complete and was done without a single county complaint. This development project has been dormant since 2014 and it has been revised numerous times. In 2016, the developer was granted six stakeholder meetings to help facilitate his project. Nothing happened. Most development application are only allowed two years of inactivity before they are rejected and returned for re-submission.

In contrast to this development process, the EIR was recently completed for the Jackson Township (6500 homes and 2 million feet of commercial space). The preparation of technical studies, the scoping of the NOP and the environmental impact report was completed in ten years. The Rancho North project has been open for nine years. Completion dates of the studies and the generation of an NOP is impossible to calculate. Please do not be rushed by this developer. Nothing done to date warrants any special treatment by RMCS D simply because we are being pressured to do so. I am only asking for a two month delay.

I look forward to an active conversation on the IWMP First, we must properly pick a qualified consultant and be sure everyone who lives in the District has a fair shake at the water supply.

Subject: Reopen RFP to find another vendor to complete the new IWMP
Date: Tuesday, December 6, 2022 8:32:09 PM

Unfortunately I am not able to attend the Improvements Committee meeting on December 7th and request that you share my email with the committee.

As a resident of Rancho Murieta I am concerned with future water supply availability and want to be assured that expansion of the community via new developments will not result in water supply issues for current residents. I am pleased to hear that the RMCSD is planning a new Integrated Water Master Plan and has issued an RFP to complete the plan. However, I am troubled that there was only one vendor that responded to the RFP.

I am requesting that the committee reopen the RFP and solicit additional respondents to ensure that RMCSD is in fact picking the best vendor and not just the only vendor that applied.

Water for our community is just too important not to take additional time and to make the effort to ensure that RMCSD has several viable options to choose from.

Thank you,
Heather Arias

I support the expanding of the RFP process to encourage more participation to find another vendor to complete the new IWMP. Please pass this request to other Board members.

Thank you.

Subject: Expanded RFP for IWMP
Date: Monday, December 12, 2022 2:50:26 PM

Dear CSD Board Secretary,

Please forward my concerns to the BODs regarding the soliciting of multiple RFP's for the IWMP.

I strongly support and feel it necessary that RMCSD expand the RFP process and actively solicit and encourage more participation to find another vender (not same company that did the 2010 and 2016 report) to complete the new IWMP.

Regards,

Sheila Rowert

Subject: Current RFP and IWMP Objection
Date: Wednesday, December 7, 2022 1:16:39 PM

Ms. Wilder,

Please ensure copies of this email are distributed to all RMCS D Board members.

Dear Mr. Michael Fritschi,

I find it disappointing and disturbing to see Maddaus Water Management (MWM) as the primary focus for selectee of the new IWMP contract. Believe, as a potential third time assessor of the District's water resources, their time in the sun has come and gone.

The District and community can no longer rely on a superficial report based on regurgitated data from prior year assessments. Nor should we be content with old school, conventional methods and practices in IWMP formulation as a true representation of our **future** water requirements. In today's environment, without inclusion of an in-depth probability study to factor in creditable impacts from climate change and drought, an IWMP is worthless.

What is clearly needed, is not the basic, standardized RFP with the same requirements as past years. But, rather a new comprehensive and intricate RFP written to also encompass the unconventional and unique requirements/qualities of this District. Given the enormity of the potential consequences from this IWMP, an RFP with exacting specifications and vested requirements is essential.

Now is not the time or place for CSD to sit on it's laurels or ignore it's due diligence by offering up a "xerox copy" of a prior year's RFP. The existing RFP needs to be rescinded and a new one written with the above in mind. The goal in doing so is simply to attract as many bidders as possible until one is found who's skill-set match the specific type of talent required for our District.

Finally, as the most significant and crucial IWMP in both District and community history, it is imperative that the accuracy, reliability, impartiality and validity be of the highest quality and certainty. And, in my opinion, it's the attention to detail characteristic and attribute that was missing in MWM's prior work. Therefore, as a concerned citizen and ratepayer, I again implore you as Board members NOT to consider Maddaus Water Management as a potential contractor for this IWMP. Further, to withdraw your current RFP and extent your timeline to allow for a comprehensive RFP rewrite. One formulated precisely on the exclusive specifications and requirements pertinent to this District's water resources.

Regards,
Patrick Reeves

Subject: IWMP
Date: Monday, December 19, 2022 4:48:51 PM

To the Board of Directors,

I have lost confidence in this Board with your past decisions and now your current plans to move forward with Maddaus Water Systems for an updated IWMP. You are gambling with our water supply. We need an accurate account of the water we have currently and for the proposed development going forward. I am afraid we will not get that based on what you are proposing. I honestly do not believe we are going to be able to supply water for the community if it grows substantially beyond 3,000 hook-ups.

If you proceed with your plan and receive an inaccurate report due to your limited scope of work, what is your plan for the future? How will the community get water if the drought continues and we are not allowed to draw water out of the river due to inadequate water in the river?

Please reconsider fast-tracking this project with Maddaus. Put out another RFP to generate more response. And please have public meetings regarding this process as you have in the past. This is more than just the four of you at stake, it is the whole community's future.

To the Board of Directors,

Please consider the community's concern regarding the contract with Maddaus Water Systems for an updated IWMP. A rushed decision to save costs could result in future issues with adequate water supply for our community, especially if the drought continues. Another concern is the potential need for an urban plan once we exceed 251 additional water hookups. It makes financial sense to pay for one report (Urban) rather than two, (Integrated Water Master Plan now and Urban in a few years).

This is a serious issue both with the water supply and financial impacts. Please take more time, listen to the community and reconsider an urban plan opened to multiple bidders before signing any contracts.

Subject: RFP/IWMP Major Concerns, Round Two
Date: Tuesday, December 20, 2022 1:33:02 PM

Ms. Wilder,

Once again, please ensure copies of this email are distributed to all RMCS D Board members prior to tomorrow's Board meeting. Would definitely appreciate it.

TO: RMCS D Board of Directors

I'm writing to express what I believe are major issues and concerns with the pending RFP going forward as written. Further, please note that the sentiments expressed here are by no means representative of all the problematic concerns I have with the RFP/IWMP.

First, there needs to be a specific requirement in the RFD to determine the exact capacity for each of our reservoirs. We can no longer rely on previously accepted data that has not been certified since Carter was President. It was only recently that Lake Calero's long established capacity was determined to be overstated by 20%, and even that figure is still in question and yet to be validated. Second, apparently Chesbro's capacity has come into question as well. Per reliable sources, Chesbro also has an over estimated capacity which no one is willing to discuss or make public. But now that the cat's out of the bag, would appreciate a Board member to share that information with the public at the upcoming Dec 21st meeting. Next, is Lake Clementia which is fed by the area's natural drainage and runoff. The major concern here is that destruction of the area above and around Clementia from buildout will also result in elimination of natural drainage and runoff. The result, loss of a well established and vital source of water, which will dramatically impact availability. Final buildout may further result in unwanted residential drainage and runoff containing toxic/hazardous waste capable of contaminating and polluting Clementia's entire water supply. Are there any contingency plans in place if either situation occurs and are they subject to inclusion under IWMP study? Something else to consider is, with an additional 1,000 homes, reservoir levels will experience never before seen lows. At some point, levels will reach a condition of stagnation where their remaining water is unusable. Is there a factor or process to determine the exact percentage of unusable water?

As I previously informed the Board, I firmly believe an RFP amendment to secure a series of meetings and interactions between contractor and community is imperative to the overall evaluation, formulation and validity of the IWMP. Since the amendment represents only positive effects and returns from such a collaboration, why is the Board objecting to it's approval? Surely penning the amendment isn't overly taxing, plus there's still ample time remaining to modify the RFP, and the cost/effort would be minimal. So, the question still is...WHY? Because, personally I see no valid reason to abstain from such a constructive and conducive opportunity, especially given what's at RISK!

Of paramount importance as well, are the questions and concerns put forth by Mr. Brad Sample at the Dec 7th meeting. I'm in total agreement and support of every one of Mr. Sample's points, and extremely curious to hear and review Ms. Maddaus's responses to his

questions. Of particular interest were his inquiries regarding current and future negative effects on the existing customer base. Current water usage levels by, nor water availability for, existing District customers must not be comprised, penalized or diminished due to future IWMP consequences. This is a ZERO Acceptance requisite for the RFP and IWMP and includes both MINOR, as well as Major findings, presumptions and/or conclusions of a negative nature.

Lastly, no matter the direction of the assessment, you cannot ignore the conclusions and recommendations from two previous assessments for additional storage to support future development. Findings of the 2006 and 2010 IWMPs both identified a lack of sufficient water storage to adequately support future buildout. The recommendation, an additional reservoir be constructed to increase storage capacity in order to meet future demands. Since our storage capacity has only decreased, as noted above, it becomes borderline impossible to conclude why or how the District's reduced water capacity would suddenly NOW be capable of supporting buildout.

So, maybe existing water conditions require another reservoir before development proceeds. So be it. Or maybe, our overstated reservoir capacity cannot support buildout. So be it. Or maybe, the probability model for environmental factors proves there's a significant degree of concern to warrant a moratorium on development at this time. So be it. Or maybe a number of conditions and factors correlate to a finding of inadequacy in our water resources. So be it.

My point? Given the uniqueness and status of the District's current water sources, impacts upon it can easily turn critical, especially if increasing the customer base. There's both a known and unknown number of circumstances and factors that can immediately or over time cause unwanted effects of varying degrees. The assurance of ZERO Acceptance against these effects is what is being entrusted to you, the Board. There can be no bias, no compromise, no omissions, no uncertainty, no subjectiveness, and no conjecture involved with this IWMP. Your primary objective should be nothing short of ZERO Acceptance of any MINOR or major IWMP findings and/or indications of possible negative effects on the District's existing customer base, no matter how significant or SLIGHT.

In effect, by adopting and abiding by this premise the Board will virtually eliminate any potential negative effects that may have been detrimental or catastrophic to the District's future water resource. Furthermore, I urge the Board to follow this premise/strategy of least resistance when examining the finalized recommendations, determinations and conclusions outlined in the Integrated Water Master Plan. And during the review process always keep in mind, the SLIGHTEST effect identified today, has the potential for devastating impacts tomorrow.

Regards,

Patrick Reeves

MEMORANDUM

Date: December 16, 2022
To: Board of Directors
From: Amelia Wilder, District Secretary
Subject: Committee Appointments

As is the District's normal practice, and on a yearly basis, for our December Board Meeting, the Directors indicate their preferences for Committee assignments for the upcoming year.

Standing Committee meetings are generally scheduled monthly, quarterly or annually depending on the needs of the District. Monthly Committee meetings occur on a fixed schedule (e.g., the first Tuesday and Thursday of each month). Committee meetings generally occur during the daytime work hours (from 8:00 a.m. to 5:00 p.m.)

It is recognized that some Directors are employed or conduct their own business during those hours and may have expected or unexpected conflicts in schedule between Committee meetings and their own employment or business needs.

The current members of the Board are content with their current assignments. Director Butler asked to be added to the Security Committee. There are Committee Vacancies in Communications and Finance, due to the resignation of John Merchant. Below are the current Committee assignments and vacancies.

<i>OFFICE / COMMITTEE</i>	COMMITTEE ASSIGNMENTS
President	Tim Maybee
Vice President	Randy Jenco 2023 - Vacant
Communication & Technology Committee	Linda Butler Vacant
Finance Committee	Martin Pohll Vacant
Improvements Committee	Randy Jenco Martin Pohll
Joint Security Committee	Tim Maybee
Personnel Committee	Tim Maybee Randy Jenco
Parks Committee	Linda Butler <i>Randy Jenco (alternate)</i>
Security Committee	Tim Maybee
Regional Water Authority Representatives	Michael Fritschi <i>Tim Maybee (alternate)</i>

MEMORANDUM

Date: December 21, 2022
To: Board of Directors
From: Travis Bohannon – Interim Director of Operations
Subject: Rio Oso Pump Station Emergency Project

Recommended Action

Staff are requesting that the Board extend the emergency declaration for the Rio Oso Emergency Project.

Background

Previously the Board adopted a resolution finding that an emergency existed in connection with the Rio Oso pressure station and the general manager was authorized to approve an emergency contract with Kirby Pump to perform the pump replacement work for \$37,800; and approve to contract with Prodigy Electric for a total of \$53,146 for procurement and replacement variable frequency drives (VFDs) for the District Rio Oso pressure pump station, and to allow a 15% contingency for a total emergency expenditure of \$104,588.

Update

As of December 9th, the pump portion of the installation has been completed. The pump replacement project had experienced some issues that needed to be addressed immediately to keep the project going forward and to stay within the project schedule.

1. The first pump that was installed had motor bearings that were damaged. The pumps sat in the warehouse for about 9 months and the need to rotate the shafts on a monthly basis were not communicated to the Operations Department. Once the pump was put in service and operated overnight, it started to make loud sounds. It was determined that the noise was being caused by failed motor bearings. Muniquip, the supplier, has stated that it can be repaired under warranty.
2. Because of the issue with the first motor, staff are concerned that the same issue could happen to the second motor. It was decided that the best course of action would be to remove the motor from the second pump and send it to a shop and have it tested and potentially have the bearings replaced to prevent the same issue upon installation.
3. The motor that went to the shop was repaired by replacing the grease and the bearings. On November 30, 2022, the repaired motor was swapped out for the motor that was installed with the damaged bearings. The bad motor was taken to the same shop for repair under warranty. Due to this decision, there will be a change order to the original agreement for the

repair of the first motor, another crane mobilization, and staff to come out an extra time to do the work. These additional costs are not known at this time.

The VFD's are on order and will probably be about another 20 weeks before they arrive. Therefore, staff is requesting that the Board extend the emergency declaration for this project if the emergency extension is still required.

MEMORANDUM

Date: December 21, 2022
To: Board of Directors
From: Travis Bohannon – Interim Director of Operations
Subject: Lake 11 Emergency Storm Drain Re-Alignment Project Update

Recommended Action

Staff are requesting that the Board extend the emergency declaration for the Lake 11 Emergency Project.

Background

Previously the Board adopted a resolution finding that an emergency existed in connection with Lake 11 and the general manager was authorized to approve an emergency contract with Lund Construction to perform the pipe replacement work for \$310,456.

Update

As of December 14, 2022, the project has reached substantial completion, however there is still a couple of items that need to be finished on the punch list. The lid on the new drain still needs some work done on it to make it safe. Also, the fence needs to be installed around the new drain lid for safety. In addition, testing and acceptance will need to occur prior to paying the final contractor's pay request, therefore, staff are requesting that the Board extend the emergency declaration for this project.
