INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Rancho Murieta Community Services District Rancho Murieta, California

We have audited the accompanying financial statements of each major fund, and the fiduciary fund of the Rancho Murieta Community Services District (District) as of and for the fiscal year ended June 30, 2013, which collectively comprise the District's basic financial statements as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our Responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each major fund of the Rancho Murieta Community Services District, California, as of June 30, 2013, and the respective changes in financial position and where applicable, cash flows thereof for the fiscal year then ended in conformity with U.S. generally accepted accounting principles.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3–8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The Schedules of Operating Revenues and Operating Expenses for the Water, Sewer, Drainage, Solid Waste and Security Funds, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America and in our opinion, are fairly presented in all material respects in relation to the basic financial statements taken as a whole.

Larry Bain, CPA, An Accounting Corporation

September 23, 2013

As management of the Rancho Murieta Community Services District (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2013. We encourage readers to consider the information presented here in conjunction with the District's financial statements which follow this section.

Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$29,885,604 (net position). Of this amount, \$10,127,806 (unrestricted net position) may be used to meet the District's ongoing obligation to customers and creditors.
- The District's total net position decreased by \$323,773.

Overview of the Basic Financial Statements

This annual financial report consists of four parts: Management's Discussion and Analysis, the Basic Financial Statements, Notes to Basic Financial Statements, and optional Supplementary Information.

This discussion and analysis provides an introduction and brief description of the District's basic financial statements, which include:

- Statement of Net Position
- Statement of Revenues, Expenses and Changes in Net Position
- Statement of Cash Flows

The Statement of Net Position, commonly referred to as the Balance Sheet, presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The Statement of Net Position also provides the basis for computing rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District.

The Statement of Revenues, Expenses and Changes in Net Position reflects all of the current year's revenues and expenses. All of the current year's revenues and expenses are recorded using the accrual basis of accounting by recognizing revenues in the period they are earned and expenses in the period they are incurred without regard to the timing of the related cash flows. This statement measures the success of the District's operations over the past year and determines whether the District has recovered its costs through its rates, fees and other charges. The District's profitability and creditworthiness can also be determined from this statement.

The Statement of Cash Flows provides information about the District's cash receipts and cash payments during the reporting period as well as net changes in cash resulting from operations, non-capital financing, capital and related financing activities, and investing. The statement explains where cash came from and where cash was used and the change in the cash balance during the reporting period.

The District's basic financial statements are organized by fund. Fund Financial Statements report on groupings of related funds that are used to maintain control over resources that have been segregated for specific activities or objectives. The accounts of the District are organized on the basis of funds, each of which is considered a separate entity. The operations of each fund are accounted for with a separate set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenses. Government resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped in these basic financial statements into two broad categories which, in aggregate, include two fund types as follows:

1. PROPRIETARY FUND TYPE

Enterprise Funds

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges and special taxes; and (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Revenues are fully accrued to include unbilled services at fiscal year end. The District uses enterprise funds to account for the Water, Sewer, Drainage, Solid Waste and Security activities of the District.

2. FIDUCIARY FUND TYPE

Agency Funds

Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, and other governmental, and/or other funds. Since the resources of these funds are not available to support the District's own activities, they are not reflected in the government-wide financial statements.

The basic financial statements can be found on pages 9-17 of this report.

Notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 18-30 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$29,885,604 (net position) at the close of the most recent fiscal year.

Condensed Financial Information Rancho Murieta Community Services District Net Position

June 30, 2013		June 30, 2012	
Assets Current and other assets Capital Assets - net of accumulated depreciation	\$	10,792,791 19,757,798	\$ 10,196,936 20,585,575
Total Assets		30,550,589	30,782,511
Liabilities			
Other Liabilities		558,664	470,154
Longterm liabilities		106,321	102,980
Total Liabilities		664,985	573,134
Net Assets			
Invested in capital assets, net of related debt		19,757,798	20,585,575
Unrestricted Net Assets		10,127,806	9,623,802
Total Net Assets	\$	29,885,604	\$ 30,209,377

- The District's total net position decreased by \$323,773. Unrestricted net position increased \$504,004 while capital assets, net of accumulated depreciation decreased \$827,777. The decrease in capital assets is the net result of asset additions/deletions of \$287,885 and depreciation expense of \$1,115,662.
- Designated cash and investments, which are designated for capital improvement uses, increased due to the collection of reserve funds built into the Water and Sewer rates.
- Long-term liabilities increased due to an increase in the compensated absences balance, which relates to leave balances earned but not yet paid.

By far the largest portion of the District's net position (66%) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) (Net Capital Assets \$19,757,798/Total Net Position \$29,885,604 = .661%). Some of those assets are from contributed capital. The District uses these capital assets to provide services to customers; consequently, these assets are not available for future spending.

Enterprise-type activities – Water, Sewer, Drainage, Solid Waste and Security Rancho Murieta Community Services District's Changes in Net Position

	June 30, 2013	June 30, 2012
Revenues		
Operating revenues	\$ 5,157,564	\$ 4,659,785
Nonoperating revenues	1,140,457	1,221,310
Total Revenues	6,298,021	5,881,095
Operating Expenses		
Water	1,113,969	970,223
Sewer	880,140	749,901
Drainage	122,880	123,282
Security	887,252	882,173
Solid waste	593,003	541,572
Other	1,887,139	1,998,283
Depreciation	1,115,662	1,112,877
Total Operating Expenses	6,600,045	6,378,311
Change in Net Position	(302,024)	(497,216)
Net Position, Beginning of Fiscal Year	30,209,377	30,659,189
Prior Period Adjustment	(21,749)	47,404
Net Position, End of Fiscal Year	\$ 29,885,604	\$ 30,209,377

Key elements of the enterprise activities are as follows:

- Operating revenues increased 7.1 percent. Water service charges increased by \$275,762 or 17.6 percent due to the approved rate increase and higher water consumption. Sewer service charges increased by \$97,127 due to the approved rate increase. Security operating revenues increased \$45,030 or 4.0 percent due to approved rate increases.
- Nonoperating revenues had a net decrease of \$80,853 or (6.6%) due primarily to the
 decrease in reserve fees collected for Sewer, the decrease in property tax revenues
 received and an increase related to grant revenue, which is related to the Title XVI Use of
 Reclaimed Water Feasibility Study.
- The Water Department collects, treats, and distributes potable drinking water to the Rancho Murieta community. Water operating expenses increased \$143,746 or 14.8%. The majority of this increase is related to Transmission and Distribution maintenance projects.
- The Sewer Department collects, treats, and disposes the Rancho Murieta community waste water. Sewer operating expenses increased \$130,239 or 17.4%. This increase is related primarily to Treatment and Disposal maintenance projects.
- The Drainage Department provides and maintains the drainage system for Rancho Murieta. Drainage operating expenses remained relatively unchanged since 2011-2012.
- Solid Waste services are provided by contract with California Waste Recovery Services.
 Operating expenses for Solid Waste increased \$51,431 or 9.5%. Approximately half of
 this increase is related to the Household Hazardous Waste Collection Event sponsored by
 the District in September 2012.
- The Security department provides gate and patrol services. Operating expenses for Gate services increased \$11,127 or 2.3 percent. Operating expenses for Patrol services decreased \$6,048 or (1.5%).
- The Administration department covers the remaining staff located in the District's administration building excluding the Director of Field Operations and the Security Chief. However, all general administration type costs relating to the Water, Sewer, Drainage, Solid Waste and Security departments are combined with the administration department on the Statement of Revenues, Expenses, and Changes in Net Position and are shown as General and Administrative costs. General and Administrative costs decreased \$111,144 or (5.6%). This decrease is predominately due to the reduction in Operational Reserve expenditures by the Water and Sewer departments.

			3		-			

Capital Assets. The District's investment in capital assets as of June 30, 2013, amounts to \$19,757,798 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, vehicles, and equipment. The total decrease in the District's investment in capital assets for the current fiscal year was 4.0 percent.

Major capital asset events during the current fiscal year included the following:

- Main Lift North Wet Well Rehab
- Augmentation Well Project
- Purchase of Mechanic's Replacement Truck
- Lift 6B Replacement Generator

Economic Factors and Next Year's Budget and Rates

The Board of Directors adopted the District's 2013/2014 annual budget on June 19, 2013 which provides for the District's operating and capital costs for the 2013/2014 fiscal year. The beginning of recovery in the housing market has slowed the reductions in property taxes associated with Prop 8 revaluations of assessed property values. In 2013/2014, the District expects to receive an increase of approximately 2% in property taxes related to Sacramento County's adjustment of property values.

The District expects to reach agreement on a Financing and Services Agreement with area developers in 2013. It is anticipated that some of those developers will begin new development within Rancho Murieta sometime in 2015.

Capital projects that are included in this annual budget are:

- 1) Continuation of the Main Lift North Wet Well Rehabilitation
- 2) Hole 13 North Culvert Replacement
- 3) Wastewater Recovery Plant Filter PLC Replacement
- 4) Electronic Document Management System; and
- 5) Email Exchange Server for in-house email provision and support.

The District's rates for water, sewer, drainage, security and solid waste services are reviewed annually by staff and the Board of Directors. The District increased rates approximately 4.9% for Water services. All of this increase is related to the debt service prefunding for the rehabilitation of Water Treatment 1. The rates for Sewer service increased 7.3%, which is related to the prefunding of debt service for the construction of the permanent irrigation fields at Van Vleck Ranch being reinstated for 2013/2014. Rates for Security services increased approximately 1.5%, 2.0% for Drainage, and 1.5% for Solid Waste.

Requests for Information

This financial report is designed to provide a general overview of the Rancho Murieta Community Services District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Rancho Murieta Community Services District, Director of Administration, P.O. Box 1050, Rancho Murieta, CA, 95683.

Notes to Basic Financial Statements June 30, 2013

Note 1: Significant Accounting Policies

The Rancho Murieta Community Services District (District) was formed in 1982, under California State Government Code 61600 and currently provides water, sewer, drainage, solid waste and security service throughout the Rancho Murieta Community. The District's financial and administrative functions are governed by a five member Board of Directors elected by the voting population within the District.

The accounting policies of the Rancho Murieta Community Services District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

A. Reporting Entity

The District's basic financial statements include the operations of all organizations for which the District's Board of Directors exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

Based upon the aforementioned oversight criteria, the following entities have been included within the reporting entity as blended component units:

Special Assessment District – The special assessment district is the Community Facilities District No. 1. This Special Assessment District was created for the purpose of acquiring, constructing and maintaining water and sewer facilities within the Rancho Murieta boundaries. The District is not obligated to repay debt of the Special Assessment District but functions as an agent for the property owners by collecting assessments, forwarding collections to special assessment debt holders, and, if appropriate, begin foreclosures on delinquent property owners. Because of the special financing relationships, the Community Facilities District No. 1 has been included in the financial statements as a fiduciary fund type.

B. Basis of Presentation

The District's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

Fund Financial Statements

The proprietary fund financial statements provide information about the District's funds. Separate statements for each fund category - proprietary and fiduciary - are presented. The emphasis of fund financial statements is on major individual funds, each of which is displayed in a separate column. All remaining funds are aggregated and reported as nonmajor funds.

Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses, and Changes in Net Position, and a Statement of Cash Flows.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Net Position presents increases (revenues) and decreases (expenses) in total Net Position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred.

Notes to Basic Financial Statements June 30, 2013

Note 1: <u>Significant Accounting Policies (Continued)</u>

B. Basis of Presentation (Continued)

Operating revenues in the proprietary funds are those revenues that are generated from the primary operation of the fund. All other revenues are reported as nonoperating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as nonoperating expenses.

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Fiduciary funds use the "economic resources" measurement focus and the accrual basis of accounting.

C. Major Funds

GASB Statement No. 34 defines major funds and requires that the District's major proprietary funds are identified and presented separately in the fund financial statements. All other funds, called nonmajor funds, are combined and reported in a single column, regardless of their fund-type.

Major funds are defined as funds that have assets, liabilities, revenues, or expenditures/expenses equal to or greater than ten percent of their fund-type total or five percent of all fund-type totals. The District may also select other funds it believes should be presented as major funds. The District reports all of its proprietary funds as major funds.

The District reported the following major proprietary funds:

Water

This fund accounts for the activities of providing water to the residents of the District.

Sewer

This fund accounts for the activities of collecting and treating wastewater of the residents in the District.

Drainage

This fund accounts for the activities of providing drainage to the residents of the District.

Solid Waste

This fund accounts for the activities of collecting solid waste of the residents of the District.

Security

This fund accounts for the activities of providing security to the residents of the District.

The District reports the following additional fund types:

PARS Trust Fund

Accounts for activities associated with the District's other post employment benefits (OPEB) trust fund used for administration of health insurance for retirees.

Agency Fund

The Agency fund accounts for assets held by the District as an agent for other entities.

RANCHO MURIETA COMMUNITY SERVICES DISTRICT Notes to Basic Financial Statements June 30, 2013

Note 1: <u>Significant Accounting Policies (Continued)</u>

D. Basis of Accounting

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both government-wide financial statements and proprietary funds financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and proprietary funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

E. Budget and Budgeting

Budget integration is employed as a management control device. Budgets are formally adopted by the Board of Directors and take effect the following July 1. The budgets are a management tool and not a legal requirement.

F. Restricted Assets

Restricted assets are financial resources generated for a specific purpose such as construction of improvements and financing of debt obligations. These assets are for the benefit of a distinct group and as such are legally or contractually restricted from an external source.

G. Comparative Data

Comparative total data for the prior fiscal year has been presented in the accompanying basic financial statements in order to provide an understanding of changes in the District's financial position, operations, and cash flows. Certain amounts presented in the prior fiscal year data may have been reclassified in order to be consistent with the current fiscal year.

H. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents. Amounts held in the State of California Local Agency Investment Fund (LAIF) are considered to be cash and cash equivalents due to their highly liquid nature.

I. Property Taxes

Secured property taxes are levied on January 1 and are payable in two installments on November 1 and February 1, which become delinquent after December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. Sacramento County (County) bills and collects the property taxes and allocates a portion to the District. Property tax revenues are recognized in the fiscal year for which they become available. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.

The District is under the Teeter Plan and thus can receive 100% of the property tax apportionment each fiscal year, eliminating the need for an allowance for uncollectible tax. The County, in return, receives all penalties and interest. Under the Teeter Plan, the County remits property taxes to the District based on assessments, not on collections, according to the following schedule: 55 percent in December, 40 percent in April, and 5 percent at the end of the fiscal year.

Notes to Basic Financial Statements June 30, 2013

Significant Accounting Policies (Continued) Note 1:

J. Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are recorded at fair value at the date of donation. The District's policy is to capitalize all capital assets with costs exceeding \$5,000.

The purpose of depreciation is to spread the cost of capital assets equitably among all users over the life of these assets. The amount charged to depreciation expense each fiscal year represents that year's pro rata share of the cost of capital assets. GASB Statement No. 34 requires that all capital assets with limited useful lives be depreciated over their estimated useful lives. Depreciation is provided using the straight line method which means the costs of the capital asset is divided by its expected useful life in years and the result is charged to expense each year until the capital asset is fully depreciated. The District has assigned the useful lives listed below to capital assets:

> **Buildings** Improvements

40 years

Equipment

20-50 years

5-15 years

K. Compensated Absences

All earned vacation, which is payable upon termination or retirement, is accrued as compensated absences, in accordance with GASB Statement No. 16. Sick leave benefits are not vested to the employee.

L. Net Position

GASB Statement No. 34 requires that the difference between assets and liabilities be reported as net position. Net position are classified as either invested in capital assets, net of related debt, restricted, or unrestricted.

Net position that are invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. Restricted net position is the net position that has external constraints placed on them by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of invested in capital assets, net of related debt, or restricted net position.

M. Deferred Compensation Plan

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributed to those amounts, are maintained in a trust. Participants have sole rights under the plan in an amount equal to the fair value of the deferred account for each participant.

N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America as prescribed by the GASB and the American Institute of Certified Public Accountants (AICPA), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RANCHO MURIETA COMMUNITY SERVICES DISTRICT Notes to Basic Financial Statements June 30, 2013

Note 2: Cash and Investments

Classification

The cash and investments are classified in the financial statements as shown below, based on whether or not their use is restricted under the terms of District debt instruments or District agreements:

Cash and investments	\$ 1,168,872
Designated cash and investments	 8,540,993
Cash and investments, Statement of Net Assets	9,709,865
Cash and investments, Statement of Fiduciary Net Assets	3,128,560
Total cash and investments	\$ 12,838,425

Cash and investments as of June 30, 2013 consist of the following:

\$	250
2	,188,337
10	,649,838
\$ 12	,838,425
	10

A. Investments Authorized by the California Government Code and the District's Investment Policy

The table below identifies the **investment types** that are authorized for the Rancho Murieta Community Services District (District) by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address **interest rate risk, credit risk**, and **concentration of credit risk**. This table does not address investments of debt proceeds held by bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California government Code or the District's investment policy

	Maximum	Percentage	Investment
Authorized Investment Type	Maturity_	of Portfolio	in One Issuer

Re-purchase Agreements	180 days	20%	None
Corporate Debt	5 years	25%	None
Money Market Accounts	N/A	None	None

C. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

		Remaining Maturity (in Months)						
		12 Months	1	3-24	25	5-36	3	37-48

^{*}Not subject to categorization

Notes to Basic Financial Statements June 30, 2013

Note 2: Cash and Investments (Continued)

D. Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfil its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

					Rating as of Fisal Year End							
		Minimum	Exen	npt From								Not
Investment Type	Amount	Legal Rating	Dis	closure	A	.AA		AA		A		Rated
CAMP Investment Pool	\$ 3,603,142	N/A	\$	-	\$	-	\$	•	\$	-	\$	3,603,142
State Investment Pool	5,679,157	N/A		-				•				5,679,157
Pars Trust	491,539	N/A										491,539
Money Market	876,000	N/A						-		-		876,000
Total investments	\$10,649,838		\$		\$	•	\$	-	\$		\$	10,649,838
								ALL STREET				E.

Concentration of Credit Risk

The investment policy of the District contains limitations on the amount that can be invested in any one issuer. There are no investments in any one issuer that represent 5% or more of **total District investments**.

F. Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits; The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

As of June 30, 2013, \$1,832,281 of the District's deposits with financial institutions in excess of federal depository insurance limits was held in public funds collateralized accounts. As of June 30, 2013, the District did not hold investments in investments held by the same broker-dealer (counterparty) that was used by the District to buy the securities:

G. Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Notes to Basic Financial Statements June 30, 2013

Note 4: Long-Term Liabilities

Long-term liabilities activity for the fiscal year ended June 30, 2013, was as follows:

	В	alance					E	Balance	
	_July	ly 1, 2012 Additions		2012 Additions		tirements	June 30, 2013		
Compensated absences	\$	95,682	\$	111,469	\$	105,895	\$	101,256	
Total	\$	95,682	\$	111,469	\$	105,895	\$	101,256	

Note 5: Net Position

Net Position is the excess of all the District's assets over all its liabilities, regardless of fund. Net position is divided into three captions under GASB Statement No. 34. These captions apply only to net position, which is determined at the proprietary funds, and fiduciary funds and are described below.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt describes the portion of net position which is represented by the current net book value of the District's capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted Net Position

Restricted net position consists of constraints placed on net position use through external creditors (such as through debt covenants), grants, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation which the District cannot unilaterally alter. These principally include connection fees received for use on capital projects and debt service requirements.

Unrestricted Net Position

Unrestricted net position describes the portion of net position which is not restricted as to use.

Note 6: Defined Benefit Pension Plan

A. Plan Description

The District's defined benefit pension plan with the California Public Employees' Retirement System (CalPERS) provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. This CalPERS is part of the Public Agency portion of the CalPERS, an agent multiple-employer plan administered by CalPERS, which acts as a common investment and administrative agent for participating public employers within the State of California. A menu of benefit provisions and other requirements are established by State statutes within the Public Employees' Retirement Law. The District selects optional benefit provisions from the benefit menu by contract with CalPERS and adopts those benefits through local ordinance. CalPERS issues a separate comprehensive annual financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office - 400 P Street - Sacramento, CA 95814.

Notes to Basic Financial Statements June 30, 2013

Note 6: <u>Defined Benefit Pension Plan (Continued)</u>

B. Funding Policy

Active tier 1 plan members in the District's defined pension plan are required to contribute 7% of their annual covered salary and active tier 2 members are required to contribute 6.25% of their annual covered salary. The District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members as required by the defined pension plan. The actuarial methods and assumptions used are those adopted by the CalPERS Board of Administration. The required employer contribution rate for fiscal year 2012-13 was 11.938% for tier 1 and 6.25% for tier 2. The contribution requirements of the plan members are established by state statute and the employer contribution rate is established, and may be amended, by CalPERS annually.

C. Annual Pension Cost

For fiscal year 2012-13, the District's annual required employer pension cost was \$205,926 and the District actually contributed \$205,926 The District also contributes 4% of the employees' 7% portion of their annual covered salary as a benefit to the employee for tier 1 members and 0% for tier 2 members. The employer's required contribution for fiscal year 2012-13 was determined as part of the June 30, 2010 actuarial valuation using entry age normal actuarial cost method with the contributions determined as a percent of pay. The actuarial assumptions included (a) 7.75% investment rate of return (net of expenses); (b) projected salary increases that vary by duration of service ranging from 3.25% to 14.45% for miscellaneous members; and (c) 3.25% overall payroll growth including 3.0% for inflation.

The actuarial value of the plan's assets was determined using a technique that smoothes the effect of short-term volatility in the market value of investments over a two to five year period depending on the size of investment gains and losses. The plan's unfunded actuarial accrued liability (or excess assets) is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at July 1, 2010, was 18 years.

Trend Information for the District

06/30/13	205.926	100%		_

Notes to Basic Financial Statements June 30, 2013

Note 7: Post Retirement Health Care Benefits

Plan Description. Rancho Murieta Community Services District's Post-Retirement Healthcare Plan is a single employer defined benefit healthcare plan administered by Public Employees' Retirement System (PERS). PERS provides medical benefits to eligible retirees and their eligible dependents. Medical benefits are also paid to the surviving spouse of an eligible retiree. The District approved post retirement health insurance benefits for all of its employees under the Public Employees' Medical and Hospital Care Act (PEMHCA). For an employee retiring from the District with 5 or more years of service with a CalPERS agency, the District will contribute the health benefit cost for the retiree and family members up to 100% of the lowest health benefit plan offered by PERS for unrepresented employees and up to 80% of the lowest health plan offered by PERS for represented employees. A retiree with less than 5 complete years of service with a CalPERS agency who retires at the District receives no benefit. The PERS minimum is set by law. The retiree is on the same medical plan as the District's active employees, however monthly rates for coverage of covered active and retired employees are computed separately.

Funding Policy. The contribution requirement of plan members is established by the District's Board of Directors. The 2012-2013 fiscal year annual required contribution is calculated using entry age normal cost (same as CaIPERS). For the fiscal year ending June 30, 2013 the District contributed \$153,000 towards the unfunded actuarial accrued liability (UAAL). The District made the net contribution for fiscal year end June 30, 2013 directly to health insurance providers totaling \$58,628.

Annual OPEB Cost and Net OPEB Obligation. The District's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District chose a 30 year period to amortize the unfunded actuarial liability. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the District's Healthcare Plan:

Net OPEB obligation-beginning of year	\$ 54,472
Annual OPEB cost current fiscal year	199,470
Less: Employer contribution made to trust	(153,000)
Less: Unreimbursed retiree premium payments made to plan provider	(58,629)
Net employer contribution	 (211,629)
Net OPEB obligation-end of year	\$ 42,313

Three year disclosure of the District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation is presented as follows:

Trend Information for the District OPEB

Fiscal	Annual	Percentage	Net
Year	OPEB	of AOC	OPEB
Ended	Cost (AOC)	Contributed	Obligation
06/30/11	\$ 188,914	100%	\$ 34,996
06/30/12	191,639	100.00%	54,472
06/30/13	199,470	100.06%	42,313

Notes to Basic Financial Statements June 30, 2013

Note 7: Post Retirement Health Care Benefits (Continued)

Funded Status and Funding Progress. As of June 30, 2013, the actuarial accrued liability (AAL) was \$1,843,167 and the unfunded actuarial accrued liability (UAAL) for benefits was \$1,351,627. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress will be presented in the future when multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits is available.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. In the July 1, 2010, actuarial valuation, the entry age normal cost asset valuation method is used. The actuarial assumptions included a 7.75% discount rate and the normal cost component of the ARC increases 5.5% per year throughout the five year projection. The valuation assumes that 100% of eligible retirees will actually participate in the retiree medical benefit. The annual healthcare cost trend rate for represented employees had an assumed cap of 3% per year and the unrepresented had an assumed premium rate increase of 7.9% beginning January 1, 2013, decreasing approximately .3% per year until reaching an ultimate rate of 5.5 percent. It was assumed salary increases will be 3.25% per annum.

Note 8: Special Assessment District

The Rancho Murieta Community Services District's Board and management are responsible for the administration of the Community Facilities District (Community Facilities District No. 1) formed under the provisions of Mello-Roos. The District is not obligated to repay the special assessment debt to the special assessment debt holders.

The amount of special assessment debt at June 30, 2013, is:

Community Facilities District No. 1

\$ 2,530,000

Separate audited financial statements have been issued for the assessment district.

Note 9: Revenue Limitation Imposed by California Proposition 218

Proposition 218, which was approved by the voters in November 1996, will regulate the District's ability to impose, increase, and extend taxes and assessments. Any new, increase, or extended taxes and assessments subject to the provisions of Proposition 218, requires voter approval before they can be implemented. Additionally, Proposition 218 provides that these taxes and assessments are subject to voter initiative process and may be rescinded in the future years by the voters.

RANCHO MURIETA COMMUNITY SERVICES DISTRICT Notes to Basic Financial Statements June 30, 2013

Note 10: Prior Period Adjustments

C. Restatement of Net Position and Fund Balance

Adjustments resulting from errors or a change to comply with provisions of previously issued or retroactively applied accounting standards are treated as prior period adjustments. Accordingly the District reports these changes as a restatement to beginning net position in the proprietary fund statement of revenue, expenses and changes in net position.

The impact of the restatements to the previously reported net position is presented below:

	Water Fund	Sewer Fund
Fund Balances, June 30, 2012	\$13,890,764	\$ 14,915,266
Adjustments for: Prior year receivables and payables (net) Total adustment	(14,437)	(7,312) (7,312)
Fund Balances, July 1, 2012 as restated	\$13,876,327	\$ 14,907,954

Note 11: Subsequent Event

Subsequent to fiscal year end the Community Facilities District accumulated sufficient cash to prepay the \$2,530,000 outstanding special assessment debt with no governmental commitment. The Community Facilities District also terminated assessing properties, used to pay for the special assessment debt, starting with the 2013/14 fiscal year tax roll.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Board of Directors Rancho Murieta Community Services District Rancho Murieta, California

We have audited the Financial Statements of the Rancho Murieta Community Services District (District) as of and for the fiscal year ended June 30, 2013, and have issued our report thereon dated September 23, 2013. In our audit report we issued an unqualified opinion. We conducted our audit in accordance with auditing standards generally accepted in the Unites States of America.

Internal Control over Financial Reporting

In planning and performing our audit, we considered District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control, such that there is a reasonable possibility that material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal controls over financial reporting and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control. This report is an integral part of an audit performed in accordance with auditing standards generally accepted in the United States of America in considering the District's internal control over financial reporting accordingly this report is not suitable for any other purpose.

This report is intended solely for the information and use of the Board of Directors, management, the Sacramento County Auditor Controller's Office and the Controller's Office of the State of California and is not intended to be and should not be used by anyone other than these specified parties.
