He has served the public in a variety of administrative roles during his tenure with the City of Stockton and County of San Joaquin.

As the DOA, Tom will provide needed depth in support of and as backup to the General Manager (GM) and staff, maintain a comprehensive understanding of the entire District's operations and directly over see District-wide administrative functions. While tasked with overseeing day to day personnel matters, financials/accounting, technology and customer service, Tom will identify and implement opportunities to improve customer service and enhance organizational capacity and culture. Working closely with the GM, he will immediately focus on organization review, planning and training for all key District administrative roles and responsibilities.
