Beginning with the December 2014 billing statement, the monthly Water Treatment Plant (WTP) Debt Service Charge of \$6.00 per residential and commercial account is effective. The purpose of this charge is the repayment of the internal borrowing between reserve funds for the Community Services District's portion of the WTP Expansion Project. This debt service charge was included in the April 2014 Proposition 218 Notice of Proposed Rate Increase and was approved by the Board of Directors at the June 18, 2014 Board meeting. It is anticipated that the internal borrowing will be repaid in approximately ten and a half (10 ½) years.
